PREFACE

This Course Catalog serves as a course selection guide for students and parents who are seeking information about courses at [Los Altos High School](#). This catalog is published annually and reflects the most current offerings; however, it cannot be assumed that every course listed here is offered each semester. Core courses for graduation and entrance to the University of California and California State Universities are always offered. Elective courses are offered based on student sign-ups and the availability of qualified teaching staff.

As a basic planning tool, this catalog features brief descriptions of courses offered and a listing of high school graduation and college entrance requirements. The Course Catalog is intended to be used together with other supplementary materials. Using these resources in conjunction with the support of their parents or guardians and counselors, students will be able to design a course schedule that reflects their interests and aptitudes and meets their post-high school goals.

[Los Altos High School](#) encourages and welcomes the continuous participation of parents during this planning process and throughout students' high school years. Parents are partners in the educational process and their active participation is key to students' success.

Course Catalog is available at <https://LAHS.mv1a.net>

Los Altos High School Vision

A New ERA at LAHS: Empower, Respect, Achieve

We at [Los Altos High School](#) value a learning environment in which students and staff support one another in a spirit of unity and mutual respect. We are committed to continuous learning and the application of 21st Century skills and knowledge in the classroom and beyond. We value our diverse pathways and empower students with the skills they need to achieve their goals after graduation.

Expected School-wide Learning Results

All [Los Altos](#) graduates will be:

Self-Directed, Collaborative Learners who:

- actively and independently seek out new ideas and information.
- apply a metacognitive, self-aware approach to learning.
- value the contributions of others and collaborate effectively.

Critical, Creative 21st Century Thinkers who:

- identify problems or challenges.
- analyze and synthesize information and develop hypotheses.
- create new strategies and tools to solve problems and overcome challenges.

Effective, Engaged Communicators who:

- convey ideas and information, and engage with others, through a variety of media.
- address and understand diverse audiences and the perspective of others.
- utilize technology and new media in a responsible manner.

Responsible, Global Citizens who:

- demonstrate honest, ethical and respectful behavior.
- consider how their actions equitably affect the community and the environment.
- make choices that support physical and mental health.

THE “a-g” SUBJECT REQUIREMENTS

The University of California and California State University systems require prospective students to complete a series of high school college preparatory courses in order to be eligible for admission. These are known as the “a-g” subject requirements and can be summarized as follows:

- **History/Social Science (“a”)** – *Two years*, including one year of world history, cultures and historical geography and one year of U.S. history, or one-half year of U.S. history and one-half year of American government or civics.
- **English (“b”)** – *Four years* of college preparatory English that includes frequent and regular writing, reading of classic and modern literature, and practice listening and speaking.
- **Mathematics (“c”)** – *Three years* of college-preparatory mathematics that include the topics covered in elementary and advanced algebra and two- and three-dimensional geometry.
- **Laboratory Science (“d”)** – *Two years* of laboratory science providing fundamental knowledge in at least two of the three disciplines of biology, chemistry and physics.
- **Language other than English (“e”)** – *Two years* of the same language other than English or equivalent to the second-level of high school instruction.
- **Visual and Performing Arts (“f”)** – *One year*, including dance, drama/theater, music or visual art.
- **College-Preparatory Elective (“g”)** – *One year* chosen from the “a-f” courses beyond those used to satisfy the requirements above, or courses that have been approved solely for use as “g” electives.

The current (2019-2020, updated as of Jun 4th, 2018) “a-g” course list for Los Altos High School may be found at:

SAMPLE PAGE

Contract for Honors/AP Classes

Due by **April 10th, 2020**

Students (and their parent/guardian) who wish to register for an Honors or Advanced Placement (AP) course must sign the following contract in order to be enrolled:

1. I recognize that participation in Honors and AP classes requires me to:
 - demonstrate increased student independence,
 - take on a high degree of responsibility, and
 - meet higher standards than students in College Preparatory courses to earn the same grade.

Note: College Preparatory classes typically require 30-45 minutes homework nightly. Honors and AP courses will require additional time for nightly homework.
2. I commit to remain enrolled in the Honors and AP classes I have chosen for the entire year. While transfers to a college preparatory class *may* be granted, the following policy will be applied:
 - Students will not be permitted to transfer from an Honors/AP course until after the first week of the course.
 - There is no guarantee that there will be space available in college preparatory classes for students who want to drop Honors/AP classes after the first week of school.
 - When transferring, a student's grade will follow them into the new non-Honors or non-AP course. **Please note, level changes must take place by the end of 6th week of class.**
 - Students who drop an Honors/AP course after the first six weeks of the semester will receive a W (Withdraw) on their transcripts.
3. I realize that by enrolling in an Advanced Placement course I am expected to take the corresponding Advanced Placement Examination in May. Funding support for this examination may be available for students with demonstrated financial need.
4. I agree to uphold the school's honor code. I understand that I may be dropped from any Honors or AP class without credit if I plagiarize, cheat, or submit work that I did not personally complete as an assignment for this class.
5. **For Modern European History and Human Geography students:** Students who fail the class (F grade), will be enrolled in Contemporary World Issues, on a space available basis, to complete the Individual in Society (Global Studies) graduation requirement.

COURSE DESCRIPTIONS – ARTS (VISUAL ARTS)

The University of California requires one year of visual and performing arts chosen from the following: dance, drama/theater, music or visual art. All full-year art courses identified as College Prep (CP) or Advanced Placement (AP) meet this requirement.

DRAWING I IC1010

| Grades 9-12 | Y | Credits – 10 |
|-----------------------|---|--------------|
| Visual Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

Drawing I introduces students to the fundamentals of drawing. The course will cover various drawing skills, elements of art, principles of design and art history relevant to each project. The course emphasizes technical skills, use of drawing knowledge, creative development and analysis of aesthetic images. A wide variety of media is introduced, including graphite, charcoal, pastels, pen and ink, and colored pencils. Some project ideas include still-life studies, portraits, landscapes and human figures in both realistic and abstract manner. A donation of \$40 per semester is suggested.

DRAWING II IC1011

| Grades 10-12 | Y | Credits - 10 |
|-----------------------|---|--------------|
| Visual Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Prerequisite: Drawing I or teacher recommendation.

Recommendations: C- or better in Drawing I.

Drawing II will concentrate on creative interpretation of themes, advanced drawing techniques and a variety of media. The course emphasizes individual expression and development in diverse subjects, concepts and interpretation/analysis of ideas and aesthetic images. Through investigating different styles and techniques, students will create refined, meaningful drawings that demonstrate technical mastery and creative growth. The course will cover various drawing media, elements of art, principles of design and art history relevant to each project. Some project ideas include still-life studies, figures, formal drawings concentrating on art elements and principles of design, mixed media drawings, abstraction, expressive landscapes, emotional drawings and surrealism. A donation of \$40 per semester is suggested.

DRAWING III IC1012

| Grades 10-12 | Y | Credits - 10 |
|-----------------------|---|--------------|
| Visual Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Prerequisite: Drawing II or teacher recommendation.

Drawing III is designed to prepare students for AP Studio Art. Students will work with complex projects and aesthetic issues. Students will use elements of art and principles of design to find creative solutions for sophisticated art works. This course will emphasize development of personal style and verve, creative interpretation of ideas and technical mastery. Methods of instruction include slide presentation, group work, research, critiques, videos, field trips and teacher presentations. A donation of \$40 per semester is suggested.

This class will be held based on enrollment.

PAINTING IC1110

| Grades 9-12 | Y | Credits – 10 |
|-----------------------|---|--------------|
| Visual Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

Students develop rendering skills in the handling of various painting tools and media, including acrylics, and watercolors. Fundamental principles of art are stressed through the study of traditional and contemporary painting styles. Assignments range from still life study, abstract works and traditional painting exercises. Methods of instruction include the use of slides, videos, critiques, demonstrations and teacher presentations. A donation of \$65 per semester is suggested.

COURSE DESCRIPTIONS – ARTS (VISUAL ARTS)

PHOTOGRAPHY I IC1210

| Grades 9-12 | Y | Credits – 10 |
|-----------------------|---|--------------|
| Visual Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

This course is designed to introduce students to the foundations and standards of basic photography. Students will learn the principles and aesthetics of photography through the use of a single-lens reflex camera, black and white 35 mm roll film and dark-room processing techniques. Students will be exposed to the history of photography and beginning digital concepts. A donation of \$65 per semester is suggested.

PHOTOGRAPHY II IC1211

| Grades 10-12 | Y | Credits – 10 |
|-----------------------|---|--------------|
| Visual Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Prerequisites: C or better in Photography I

Recommendations: C- or better in Photography I.

Students will be introduced to advanced black and white photographic techniques and experimental methods. Students will continue their talents and develop their own style. Students will also be exposed to digital photography through the use of Photoshop, the use of film and digital based photography students will learn to develop a series of photographs. A donation of \$65 per semester is suggested.

DIGITAL PHOTOGRAPHY IC1220

| Grades 10-12 | Y | Credits –10 |
|-----------------------|---|-------------|
| Visual Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: Photo I or teacher recommendation.

First semester, this lab/lecture course is an introduction to digital imaging as a valuable tool for artists and photographers. The course will focus on digital scanning (flatbed and film), image manipulation and retouching and digital output as well as web publication. Second semester, this course is an intermediate digital imaging course building on the skills acquired first semester, focusing on color management and

workflow for the digital photographic artist and more advanced image manipulation and retouching.

Students will learn Adobe Photoshop as a tool for digitally altering and enhancing images for fine art and commercial application by first completing technical exercises and then developing a professional portfolio of work. Assignments on digital manipulation, collage/montage, and retouching will be given. Class discussion and slide lectures will focus on the use of digital manipulation in contemporary art including the work of artists from diverse cultures with a variety of approaches. A donation of \$100 per semester is suggested.

AP DRAWING IA1015

| Grades 11-12 | Y | Credits –10 |
|-----------------------|---|-------------|
| Visual Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| AP | Level | |

Prerequisites: Completion of a year of Drawing. (Note: Students who took one year of Painting or Photography or Art Appreciation could enroll in AP Studio Art Drawing with teacher recommendation).

The AP Studio Art course is designed for advanced art students. The course will focus on investigation and development of AP Art Drawing Portfolio elements – quality, breadth and concentration. Students will learn and utilize a variety of design concepts, approaches, aesthetic and formal theories, artistic styles and media. Students will work with a variety of techniques to create first year, college-level quality art works. Students will also learn problem-solving skills, decision-making skills and art criticism. This course provides an opportunity for advanced students to develop an art portfolio which may be submitted for college credit. Students may use previous art projects from drawing, painting, photography or art appreciation to develop a college level portfolio for the AP exam. A donation of \$65 per semester is suggested.

Freshmen through juniors girls and freshmen through junior boys may compete on the J.V. level depending on their skill level. Freshmen are allowed to compete on the Varsity level. Students will be issued team shirts and shorts and racquets. Most players purchase their own racquets. There are weekly practices. Matches and practices are scheduled during winter and spring breaks.

Time Commitment for Spring Sports

*Badminton – 2 hours a day, including some Saturdays.

COURSE DESCRIPTIONS – ATHLETICS

Matches are twice a week.

*Baseball – 2 hours a day, at least 2 games a week including Saturdays.

*Golf – 2 hours a day at local golf courses. One match a week.

*Gymnastics – 2 hours a day, meets are once a week.

* Lacrosse – 2 hours a day and games are twice a week.

*Softball – 2 hours a day and games are twice a week.

*Swimming – 2 hours a day, meets are once a week.

*Boys Tennis – 2 hours a day, Matches are twice a week.

*Track and Field – 2 hours a day, meets are once a week, may include some Saturday invitational practices through spring breaks.

Practices throughout both winter and spring breaks, tournament games are on some weekends.

COURSE DESCRIPTIONS – AVID

AVID (Advancement Via Individual Determination) is an internationally recognized program. It is designed to prepare students for entrance into four-year colleges and universities. The mission of AVID is to close the achievement gap by preparing all students for college readiness and success in a global society. AVID provides support to enable students to:

- *Succeed in rigorous college preparatory path,*
- *Enter mainstream activities of the school,*
- *Increase their enrollment in four-year colleges, and*
- *Become educated and responsible participants and leaders in a democratic society.*

All AVID classes help students pursue excellence in academics, leadership, and service so students will be competitively prepared for a four-year college/university upon graduation. All class activities focus on developing college readiness through WICOR (writing, inquiry, collaboration, organization and reading) strategies. Twice a week, students actively participate in the tutorial inquiry process and clarify points of confusion to develop conceptual understanding.

AVID Freshman HI0020

| Grade 9 | Y | Credits – 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: AVID Coordinator approval and concurrent enrollment in a minimum of four college-preparatory classes.

AVID Freshman is an introduction to Los Altos High School and college. Students learn about resources and opportunities at LAHS, high school graduation and college entrance requirements, and different types of colleges and careers. Students develop a four-year plan for a successful high school career, and begin developing college readiness skills, ranging from study skills (such as note-taking, test-taking, and time management) to critical reading and thinking skills (focusing on Costa's Levels of Inquiry and metacognition). Students also develop research, writing, and presentation skills as they explore cultural and contemporary issues.

AVID Sophomore HI0030

| Grade 10 | Y | Credits – 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: AVID Coordinator approval and concurrent enrollment in a minimum of four college-preparatory classes.

AVID Sophomore continues to build on the knowledge and skills developed in AVID Freshman; new students are also welcome. Students continue to develop college readiness through refining critical reading and inquiry skills. Students begin preparing for college entrance exams by learning strategies for the PSAT and developing academic vocabulary. Students also develop research, writing, and presentation skills as they explore colleges, careers, and contemporary issues in more depth. Students also develop leadership skills in a collaborative leadership project.

AVID Junior HI0040

| Grade 11 | Y | Credits – 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: AVID Coordinator approval and concurrent enrollment in a minimum of four college-preparatory classes.

AVID Junior is a continuation of the AVID Sophomore class, with a greater emphasis on college readiness; new students are also welcome. AVID Junior emphasizes rhetorical reading, analytical writing, collaborative discussion strategies, preparation for college entrance and placement exams, college study skills and test-taking strategies, note taking, and research. Students engage in higher levels of WICOR (writing, inquiry, collaboration, organization and reading) strategies than experienced in prior years of AVID.

COURSE DESCRIPTIONS – AVID

In collaboration with the University of California, AVID has developed a two-year sequential program to prepare students for a rigorous college education that integrates critical reading, writing, and research. Students complete several in-depth investigations into great leaders and their contributions, examining “How have great leaders been catalysts for change?” Students also prepare for the college admission process by drafting applications/essays and preparing for and taking the PSAT and SAT/ACT.

AVID Senior

HI0050

| Grade 12 | Y | Credits – 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: AVID Coordinator approval and concurrent enrollment in a minimum of four college-preparatory classes.

AVID Senior is the culmination of the AVID program. The course emphasizes rhetorical reading, analytical writing, collaborative discussion strategies, preparation for college entrance and placement exams, college study skills and test-taking strategies, note taking, and research. Students engage in higher levels of WICOR (writing, inquiry, collaboration, organization and reading) strategies than experienced in prior years of AVID.

In collaboration with the University of California, AVID has developed a two-year sequential program to prepare students for a rigorous college education that integrates critical reading, writing, and research. Students will complete a research project on a significant leader or issue. First semester, students complete and submit college applications. Second semester, students prepare for the transition to college, completing financial aid/scholarship applications, placement tests, a college budget, and a college four-year plan.

COURSE DESCRIPTIONS – ENGLISH

The University of California requires 4 years of college-preparatory English that include frequent writing, from brainstorming to final paper, as well as reading of classic and modern literature. No more than one year of ESL-type courses can be used to meet this requirement.

SURVEY OF COMPOSITION AND LITERATURE DC1010

| Grade 9 | Y | Credits – 10 |
|-------------------|---|--------------|
| English b b | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

All mainstream ninth-grade students are enrolled in this college-preparatory English course. Students read a variety of works with an emphasis on multi-genre, multi-cultural literary understanding. Students develop writing skills in a variety of modes. Class size is limited to an average of 20-1 when state funding allows.

SURVEY SKILLS DI1010

| Grade 9 | Y | Credits – 10 |
|----------------------|---|--------------|
| Elective No No | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| NCP | Level | |

Recommendations: 8th grade English Language Arts Teacher recommendation.

This course is designed to support and improve the language arts skills developed in the Survey of Composition and Literature class. Because the student needs extra support to be successful in the corresponding college-preparatory English class, students are recommended for this course on the basis of their reading skills, writing samples, and teacher or parent recommendation. Students taking Skills are always concurrently enrolled in a Survey of Composition and Literature class.

|--------------------|---|--------------|
| English/Comm. b | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

This college preparatory course uses a wide variety of feature films and a number of texts on film to teach students film aesthetics and expository writing. Students continue to develop reading, writing and analytical skills in preparation for college level work. As their senior project, students will either write a 10-20 page research paper or create a 15 minute film. Although this meets the U.C. English criteria, some out-of-state schools do not accept this course as college preparatory. If you have concerns, check with the appropriate admissions office.

GLOBAL CONNECTIONS

DC5040/DC5041

| Grades 12 | Y | Units - 20** |
|--|---|--------------|
| Eng/Civics/Indiv. & Soc.** a,b,g a,b,g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

In this interdisciplinary (English Language Arts & Civics) course, students will analyze the complexities of their world community using a metacognitive approach. They will use inquiry to understand the role that individuals play in impacting large scale human and civil rights violations, how identity is a key component in determining access to power and status, and the way that the legal system reinforces or equalizes power and status within communities. Students will be empowered to develop and strengthen their own values and identities as a result of better understanding the world and their role in it. Specific emphasis will be placed on non-fiction reading, research, discussion, presentation and documentary as a form of using one's voice.

Students attend class in a two-period block each day. At least one of these periods is devoted to smaller group (regular class size) discussion. The other period often involves large group instruction that can take the form of teacher presentation, guest speakers, performances, panel presentations, or a multimedia format. A team of teachers working cooperatively teach the two periods.

**Students earn 20 credits in this course. It fulfills graduation requirements in English (10 credits), Civics (5 credits, earned 2nd semester), and Individual and Society (5 credits).

COMP JOURNALISM/ TECHNICAL WRITING

DC5051

| Grades 10-12 | Y | Credits - 10 |
|-----------------------------------|---|--------------|
| English/Comm./Prac.Arts g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: Application and teacher recommendation.

Students will learn all of the skills necessary to become contributing members of the school newspaper staff, including the gathering, writing, and revision of news stories and editorials. Students manage the paper's business and finances using advanced desk-top publishing technology, solicit advertising, handle distribution, and do all graphics, lay-out, and other design.

NEW MEDIA LITERACY

KC1055

| Grade 10-12 | Y | Credits – 10 |
|-----------------------------------|---|--------------|
| English/Comm./Prac Arts g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Prerequisites: Application and teacher recommendation.

This class will focus on writing and reporting compelling stories using new media, primarily podcasting and video, accessible via the internet. Students will research, report, write, shoot, and edit stories. In doing so, students will develop time management and leadership skills as they work individually and within small teams to produce stories that are held to journalistic standards of excellence. Students will deeply analyze the intersection of new media and on-the-ground first person reporting with traditional news reporting. A crucial aspect of this course will be working toward an understanding what media literacy (and literacy writ large) means in the 21st century: students will learn how to make informed choices about their own consumption of information with regard to credibility, access, and an understanding of agenda-driven content. This understanding will flow from both the creation and analysis of content.

This course will train the peer tutors who will work at the LAHS Writing Center. Specifically, this course will explore: how to write in a variety of settings and for a variety of purposes, how to give effective writing feedback, and how to be positive mentors and leaders on campus. The course will meet daily for the first five weeks of the year, and then will meet once per week for the rest of the year. Students will fulfill requirements for the course by attending class meetings and working in the Writing Center (students will sign up for 2-3 slots per week).

COURSE DESCRIPTIONS – HEALTH

HEALTH EDUCATION

LC1010

| Grade 10-12 | S | Credits – 5 |
|-------------|-------------------------|-------------|
| Health | HS Graduation Req. | |
| No | Univ. of Calif. Req. | |
| No | Calif. State Univ. Req. | |
| None | Recommendations | |
| NCP | Level | |

Health education is a continuum of learning experiences that enables students, as individuals and as members of society, to make informed decisions, modify behaviors, and change social conditions in ways that are health enhancing and increase health literacy. The health education standards signify the essential skills and knowledge that all students need to become health literate.

This one-semester course is recommended for the sophomore year. The six Health Education content areas covered are: Alcohol, Tobacco, and Other Drugs; Growth, Development, and Sexual Health; Injury Prevention and Safety – including Red Cross Instruction in First Aid, Mental, Emotional, and Social Health; Nutrition and Physical Activity, and Personal and Community Health. For each Health Education content area students will use the eight Health Standards to achieve health literacy and build essential skills to promote healthy living:

- Learn the essential concepts related to enhancing Health.
- Analyze the internal and external influences of their decisions and strategies, including: social, financial, political, and legal influences.
- Learn how to access valid Health information, products, and services.
- Use interpersonal communication in positive ways, being assertive, using effective refusal and negotiation skills to enhance Health.
- Study and demonstrate the decision making process to evaluate their choices for each topics.
- Practice goal setting through prediction, implementation, and measurement.
- Practice Health-enhancing behaviors by using coping strategies.

- Participate in activities that support personal, family and community, Health promotion.

A primary goal of the health education standards is improved academic achievement for all students and improved health literacy in California. Four characteristics are identified as essential to health literacy. Health-literate individuals are:

- Critical thinkers and problem solvers when confronting health problems and issues.
- Self-directed learners who have the competence to use basic health information and services in health-enhancing ways.
- Effective communicators who organize and convey beliefs, ideas, and information about health issues.
- Responsible and productive citizens who help ensure their community is kept healthy, safe, and secure.

These four essential characteristics of health-literate individuals are woven throughout the health education standards.

*These courses are two period classes (10 Algebra credits and 10 elective credits) designed to provide additional support.

**Sign-up requires teacher recommendation from middle school.

COURSE DESCRIPTIONS – MATHEMATICS

The University of California requires 3 years and recommends 4 years of college-preparatory mathematics that include the topics covered in elementary and advanced algebra and two- and three-dimensional geometry. Approved integrated math courses may be used to fulfill part or all of this requirement, as may math courses taken in the seventh and eighth grades if the high school accepts them as equivalent to its own courses.

ALGEBRA 9 AC1010

| Grade 9 | Y | Credits - 10 |
|----------|-------------------------|--------------|
| Elective | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

This course is for 9th grade students who have an ability to understand abstract mathematical concepts. Topics covered include basic operations and properties of the real number system, linear and quadratic equations and inequalities, and basic coordinate geometry of lines. Also studied are systems of equations in two (2) variables, properties of exponents, rational expressions, irrational numbers and radicals, and word problems related to the above topics.

ALGEBRA I AC1110

| Grades 10-12 | Y | Credits - 10 |
|--------------|-------------------------|--------------|
| Mathematics | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

The curriculum is the same as Algebra 9 above.

ALGEBRA I with skills/lab AI1210/AI0020

| Grades 9-12 | Y | Credits - 20 |
|-------------|-------------------------------------|--------------|
| Elective | HS Graduation Req.(10 credits) | |
| c | Univ. of Calif. Req.(10 credits) | |
| c | Calif. State Univ. Req.(10 credits) | |
| See below | Recommendations | |
| NCP | Level | |

Recommendations: 8th grade math teacher recommendation. Students are recommended for this course on the basis of their math skills and teacher or parent recommendation.

The course meets two periods a day and is designed for the student that has struggled in mathematics classes. In addition to the Algebra I curriculum, numeracy, problem solving and basic math skills are a focus of this class.

ALGEBRA II Skills AI3110

| Grades 11-12 | Y | Credits - 10 |
|--------------|-------------------------------------|--------------|
| Elective | HS Graduation Req.(10 credits) | |
| c | Univ. of Calif. Req.(10 credits) | |
| c | Calif. State Univ. Req.(10 credits) | |
| See below | Recommendations | |
| NCP | Level | |

Recommendations: math teacher recommendation. Students are recommended for this course on the basis of their math skills and teacher or parent recommendation.

The course meets once a day concurrently with Algebra II and is designed for the student that has struggled in mathematics classes. In addition to the Algebra I curriculum, numeracy, problem solving and basic math skills are a focus of this class.

ALGEBRA II AC3010

| *Grades 10-12 | Y | Credits - 10 |
|---------------|-------------------------|--------------|
| Mathematics | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: C- or above in Geometry.

*This course offers to freshmen with teacher recommendation from middle school.

Algebra II expands and develops the study of the topics learned in Algebra I. New topics covered include sequences and series; complex numbers; and logarithmic, exponential and polynomial functions. Students are also introduced to conic sections, systems of equations involving more than two variables, permutations, combinations, and probability.

ALGEBRA II HONORS AB3010

| Grades 10-12 | Y | Credits - 10 |
|--------------|-------------------------|--------------|
| Mathematics | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| See below | Recommendations | |
| H | Level | |

Recommendations: A- or above in Geometry or B or above in Geometry H.

COURSE DESCRIPTIONS – MATHEMATICS

This course is designed for students with a high level of interest and ability in mathematics. All topics listed for Algebra II are covered. As time permits, students also study trigonometry and circular functions and equations, linear programming, linear algebra, and mathematical induction.

ALGEBRA II with skills/lab AI1310/AI0030

| Grades 9-12 | Y | Credits - 20 |
|-------------|-------------------------------------|--------------|
| Elective | HS Graduation Req.(10 credits) | |
| No | Univ. of Calif. Req.(10 credits) | |
| No | Calif. State Univ. Req.(10 credits) | |
| See below | Recommendations | |
| NCP | Level | |

Recommendations: Algebra I, Geometry, and/or current Algebra II math teacher recommendation. Students are recommended for this course on the basis of their math skills and teacher or parent recommendation.

The course is designed for students that has struggled in mathematics classes. This class provides additional instructional support on material/concepts that are covered in their current Algebra II classes.

CALCULUS AC5010

| Grades 11-12 | Y | Credits - 10 |
|--------------|-------------------------|--------------|
| Mathematics | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

Recommendations: C- or better in Trigonometry/Math Analysis or Trigonometry/Math Analysis Honors.

This course covers the fundamental concepts (limits, derivatives and integrals) of calculus with applications. Students enrolled in this class are not expected to take the Calculus AP exam, but will be well prepared for a college level class in calculus.

AP CALCULUS AB AA5010

| Grades 11-12 | Y | Credits - 10 |
|--------------|-------------------------|--------------|
| Mathematics | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: B- or above in Trigonometry/Math Analysis Honors or A or above in Trigonometry.

This course meets the needs of students preparing for advanced study in college mathematics, science,

or engineering. Major areas of study cover limits, functions, and the development of the differential and integral calculus of functions in one variable. The course prepares students to take the Advanced Placement Calculus AB examination.

AP CALCULUS BC AA5011

| Grades 11-12 | Y | Credits - 10 |
|--------------|-------------------------|--------------|
| Mathematics | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: B- or above in Trigonometry/Math Analysis Honors or A or above in Trigonometry.

Calculus BC is recommended for students who have a thorough knowledge of elementary functions, college preparatory algebra, geometry, and trigonometry. Calculus BC is considerably more extensive and more challenging than Calculus AB. Students are prepared to take the Advanced Placement Calculus BC examination.

MULTIVARIABLE CALCULUS HONORS AB5010

| Grades 11-12 | Y | Credits - 10 |
|--------------|-------------------------|--------------|
| Mathematics | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: Completed AP Calculus BC and passed the AP Calculus BC exam.

This course covers integrals, derivatives in 3-dimensions, and vector calculus.

ESSENTIAL MATH CONCEPTS AI2350

| Grade 11-12* | Y | Credits - 10 |
|--------------|-------------------------|--------------|
| Mathematics | HS Graduation Req. | |
| c | Univ. of Calif. Req. | |
| c | Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

The course reviews math concepts in preparation of math placement tests given by community colleges. Graphing calculator practice in regards to statistics will be emphasized. Life skills will also be introduced such as resiliency, cost of living (monthly budgeting and event planning), career, college/post secondary awareness and general finance.

COURSE DESCRIPTIONS – MATHEMATICS

*This course is best offered to seniors as they would be taking the placement test during their senior year.

GEOMETRY 9 AC2010

| Grade 9 | Y | Credits - 10 |
|-----------------------|---|--------------|
| Mathematics c c | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: C- or above in Algebra I.

This course involves the formal development of geometric skills and concepts necessary for students who will take Algebra II and other advanced courses in math. The instructional program will include consistent use of Algebra I concepts, exploratory development and demonstration of the nature of proof through logical arguments, geometric transformations, and use of problem solving skills in the development of geometric concepts. Properties of triangles, quadrilaterals, other polygons, circles, and polyhedral will be explored. The trigonometry of right triangles will also be studied.

GEOMETRY AC2110

| Grades 10-12 | Y | Credits - 10 |
|-----------------------|---|--------------|
| Mathematics c c | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: C- or above in Algebra I.

The curriculum is the same as Geometry 9 above.

GEOMETRY HONORS AB2010

| Grades 9-12 | Y | Credits - 10 |
|-----------------------|---|--------------|
| Mathematics c c | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| H | Level | |

Recommendations: A- or above in Algebra I.

This course is designed for students with a high interest and ability in mathematics. In addition to covering the regular geometry curriculum in greater depth, students will also study transformations, introductory trigonometry, and non-Euclidian geometry. Strong emphasis is placed on proofs and the application of algebra to geometry including coordinate geometry.

STATISTICS AC6010

| Grades 11-12 | Y | Credits - 10 |
|-----------------------|---|--------------|
| Mathematics c c | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations:

C- or above in Algebra II or Algebra II Honors.

This course is designed for students who would like to take a math course after Algebra II or Algebra II Honors where students will collect, analyze, interpret or explain a collection of data. Students will study statistical distributions, describing relationships, produce data (sampling, surveys, and designing experiments), probability and probability models, and statistical inference (confidence intervals, chi-squared tests).

AP STATISTICS AA6010

| Grades 11-12 | Y | Credits - 10 |
|-----------------------|---|--------------|
| Mathematics c c | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations:

pass Trigonometry/Math Analysis with at least a B-, or B- or higher in Algebra II or Algebra II Honors.

This course meets the needs of students who wish to complete studies in a secondary school equivalent to a one-semester, introductory, non-calculus based college course in Statistics. Major areas of study cover exploring data, planning a study, and anticipating patterns in advance and statistical inference. This course prepares students to take the Advanced Placement Statistics Exam.

TRIGONOMETRY/ MATH ANALYSIS AC4010

| Grades 11-12 | Y | Credits - 10 |
|-----------------------|---|--------------|
| Mathematics c c | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: C- or above in Algebra II.

This course is designed for mathematically talented students planning careers in science, mathematics, or engineering who will take calculus in high school or college. Concepts studied include trigonometry, limits, vectors, functions, complex numbers, elementary probability theory, polar coordinates,

COURSE DESCRIPTIONS – MATHEMATICS

exponential and logarithmic equations. Equations of lines and planes are also emphasized. Also included are introduction to calculus, statistics, and fractals.

TRIGONOMETRY/

MATH ANALYSIS HONORS

AB4010

| | | |
|-----------------------|---|--------------|
| Grades 11-12 | Y | Credits - 10 |
| Mathematics c c | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| H | Level | |

Recommendations: B or above in Algebra II H or A- or above in Algebra II.

This course is designed for students with a great deal of interest and ability in mathematics. It covers regular trigonometry and advanced topics in algebra, analytical geometry, limits, and an introduction to calculus materials in greater depth. Students who are successful in this course may go on to take AP Calculus AB or AP Calculus BC.

The AP Computer Science A course is an introductory course in computer science. Because the design and implementation of computer programs to solve problems involve skills that are fundamental to the study of computer science, a large part of the course is built around the development of computer programs that correctly solve a given problem. These programs should be understandable, adaptable, and, when appropriate, reusable. At the same time, the design and implementation of computer programs is used as a context for introducing other important aspects of computer science, including the development and analysis of algorithms, the development and use of fundamental data structures, the study of standard algorithms and typical applications, and the use of logic and formal methods. In addition, the responsible use of these systems is an integral part of the course.

MATH OPTIONS FOR INCOMING 9TH GRADERS

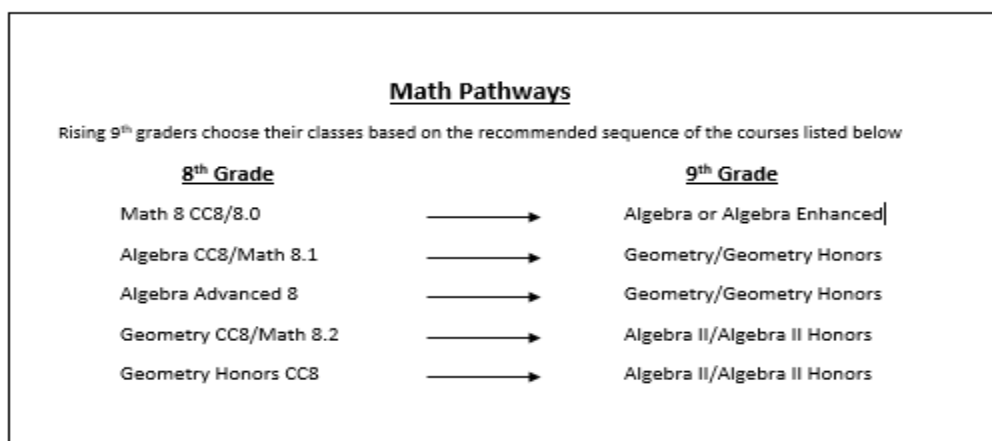

Algebra I with Skills: This class meets two periods a day and is designed for the student that has struggled in mathematics classes. In addition to the Algebra I curriculum, numeracy, problem solving and basic math skills are a focus of this class.

Algebra: This class is integrated, spiraled (will see the same topics throughout the year), and hands-on.

Incoming 9th graders: For students who have never taken Algebra, or who have received below a C- in 8th grade Math class and scored "Standard Not Met" or "Standard Nearly Met" on the 7th Grade Math SBAC Exam.

Geometry or Geometry Honors: For students who have taken and passed Algebra with a C or better.

Algebra 2 or Algebra 2 Honors: For students who have passed Algebra I **and** Geometry or Geometry Honors with a C or better.

Placement Protocol

Placement in appropriate mathematics courses is critically important for a student during his or her middle and high school years. A student's 9th grade math course placement is a crucial crossroad for his or her future educational success. Misplacement in the sequence of mathematics courses creates a number of barriers and results in students being less competitive for college admissions, including admissions at the California State University and the University of California.

1. During Course selection in February, 8th-grade students pick their 9th-grade math class based on the above pathways chart.
2. Students may self-select into Honors if they feel that they are prepared for the rigor of an HS honors class. Historically, students who earned a grade of 'B' or better in an accelerated 8th-grade math class are likely to do well in a high school honors class.
3. Student's math placement is subject to review and adjustment based on the following criteria:
 - a. Students who earn a C or better in their 8th-grade math course will be automatically advanced to the next course in the sequence, as indicated on the Math Pathways chart.
 - b. Students who earn a minimum score on an objective placement test adopted by the district, are automatically advanced to the next course in the high school math sequences, regardless of the grade earned in the 8th-grade course.

ALGEBRA

Course Comparison Information Sheet

| Algebra I with skills (double period) | Algebra 9 (Alg 1) |
|---|--|
| Content: <ul style="list-style-type: none"> • Linear Functions • Simplifying Radicals • Quadratic Functions • Exponents • Scatter Plots • Properties of exponents • Rational algebraic expressions • Distributing, axioms, and properties • Inequalities • Built-in time devoted to improving basic pre-algebra knowledge such as operations on integers | Content: <ul style="list-style-type: none"> • Linear functions • Simplifying radicals • Quadratic functions • Exponents • Scatter plots • Properties of exponents • Rational algebraic expressions • Distributing, axioms, and properties • Inequalities |

NOTE: The topics of Calculus and Statistics are completely different, as are the textbooks. It is almost impossible to change from one course to the other once the year has started.

COURSE DESCRIPTIONS – PERFORMING ARTS

The University of California requires one year of fine/performing arts. One yearlong course of visual and performing arts chosen from the following: dance, drama/theater, music or visual art. All full-year performing arts courses (except those associated with Marching Bands) meet this requirement.

ACTING I JC1410

| Grades 9-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

This course introduces students to the fundamentals of acting technique, including physical theater, improvisation, vocal projection and articulation. Performance work includes scenes, monologues and short plays, incorporating reading and analysis. Students attend live performances, learn how to give and receive critiques, and spend some time writing and performing original work. The course also introduces rudimentary concepts of technical theater and design.

ACTING II JC1420

| Grades 10-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: Audition and director recommendation.

Acting II continues and extends the skills developed in Acting I and functions primarily as a theatre company. During the year, students in Acting II prepare three full-length plays for production. The plays are rehearsed in class, but students are expected to be available for tech week and dress rehearsals as well as performances outside of class time. Commitment to intense work on production projects is mandatory for students in this class.

AUXILIARY UNIT JO1211

| Grades 9-12 | S | Credits – 5 |
|-----------------------------|---|-------------|
| Performing Arts No No | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| NCP | Level | |

This course is more commonly known as “Color Guard”. Students are not required to be musicians, but they perform with the Marching Band and must meet all of the obligations of that group. See Marching Band for more information.

BEL CANTO JC1045

| Grades 10-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: Treble singing voice, audition, and director recommendation.

This advanced treble choral ensemble is dedicated to the study and performance of choral literature for chamber groups. Singers in this ensemble are expected to read music at an advanced level and sing with experienced vocal technique. This ensemble performs and tours regularly. Students chosen to participate in this group are selected on the basis of their commitment and musical skills.

CHAMBER ENSEMBLE JC1250

| Grades 10-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites:
Director recommendation/audition. Advanced incoming 9th graders with audition.

This course is for the advanced string player (violin, viola, cello, and string bass) by audition only. All styles of traditional and contemporary music are studied and performed at several concerts and festivals during the year. Evening and weekend performances are required.

CHORALE JC1020

| Grades 9-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

This course is for beginning to intermediate singers and focuses on the fundamentals of choral singing. Students develop healthy singing technique and music literacy skills through the practice and performance of a variety of choral music. This group performs in concerts throughout the school year.

COURSE DESCRIPTIONS – PERFORMING ARTS

CONCERT BAND JC1220

| Grades 9-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: Post middle school proficiency on a standard band instrument.

This class explores standard literature for band with emphasis on developing skills on a band instrument (including percussion) and other fundamentals of music theory and history. Evening and weekend performances are required.

CONCERT CHOIR JC1030

| Grades 10-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: Audition and director recommendation.

This ensemble is for singers with some prior choral music experience and focuses on the continued development of music literacy skills and appropriate vocal technique. Singers in this ensemble are expected to read music at an intermediate level. This ensemble performs in concerts throughout the school year.

JAZZ DANCE JC1210

| Grades 10-12 | Y | Credits – 10 |
|--------------------------------|---|--------------|
| Performing Arts/P.E. f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

In this course, students learn the skills and techniques for jazz, modern, ballet, and musical theatre dance. The class provides physical development, musical training, and artistic development. Students gain poise, grace, rhythm, strength, and flexibility as a result of taking this class. Participating in dance performance is required. May be repeated for credit.

JAZZ DANCE - ADVANCED JC1211

| Grades 9-12 | Y | Credits – 10 |
|--------------------------------|---|--------------|
| Performing Arts/P.E. f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |

| CP | Level |
|----|-------|
|----|-------|

Prerequisites: Audition and teacher recommendation. Freshmen must audition and be concurrently enrolled in P.E.

A challenging, fast-paced technique class for advanced dancers. Emphasis is placed on refining and perfecting dance technique, creative choreography, and performance. Participating in dance performances each year is required. May be repeated for credit.

JAZZ ENSEMBLE JC1260

| Grades 9-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: Audition and director recommendation. Incoming 9th graders may audition but if accepted must also participate in Symphonic Band, Concert Band, Orchestra, or Chamber Ensemble.

This is an advanced instrumental ensemble. It explores a variety of jazz styles such as swing, funk, rock, Latin, bebop, and improvisation. Freshmen wishing to enroll in Jazz Ensemble are encouraged to first enroll in Concert Band to improve their musicianship skills.

MARCHING BAND JC1200

| Grades 9-12 | S | Credits – 5 |
|-----------------------------|---|-------------|
| Performing Arts No No | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| NCP | Level | |

Recommendations: Basic instrumental proficiency. (Color Guard excepted.)

Marching Band and Color Guard (auxiliary) meet after school Monday, Tuesday, and Friday afternoons from 4:00-6:15 PM, Wednesday mornings before school from 7:00-8:40 AM and most Saturdays August- mid November, and/or performances. Prior to the beginning of the season each family receives a detailed calendar of all rehearsals, performances, and other mandatory activities. Performances are required. Students are expected to attend a summer camp preceding the beginning of school. The Marching Band performs at home football games, band competitions, and community events. Because most activities associated with Marching Band occur during the first quarter, students are encouraged to enroll in another,

COURSE DESCRIPTIONS – PERFORMING ARTS

year-long musical group such as Symphonic Band, Wind Ensemble, Jazz Ensemble, or Orchestra.

ORCHESTRA JC1270

| Grades 9-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Recommendations: Students must play a standard stringed instrument (violin, viola, cello, or double bass).

This class is designed for qualified string players (violin, viola, cello, or upright bass) emphasizing the works of the great composers and utilizing a wide variety of musical styles. This course is open to students of medium to advanced ability. Orchestra meets as a string ensemble during the day. Some evening rehearsals throughout the year will be required. Winds may be added for special performances. Several performances, evening rehearsals, and festivals will be required.

SYMPHONIC BAND JC1230

| Grades 9-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: Intermediate instrumental proficiency. Incoming freshmen may schedule an audition for placement in this ensemble.

This is an advanced band that meets every day. Students explore standard music for band including the Marching Band literature during the first nine weeks of school. Evening and weekend performances are required.

VOLARE JC1085

Formerly Main Street Singers

| Grades 10-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: Audition and director recommendation.

This advanced mixed choral ensemble is dedicated to the study and performance of choral literature for

chamber groups. Singers in this ensemble are expected to read music at an advanced level and sing with experienced vocal technique. This ensemble performs and tours regularly. Students chosen to participate in this group are selected on the basis of their commitment and musical skills.

WIND ENSEMBLE JC1240

| Grades 10-12 | Y | Credits – 10 |
|---------------------------|---|--------------|
| Performing Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: Director recommendation/audition.

This course is for the more advanced instrumentalist by audition only. All styles of traditional and contemporary music are studied and performed at several concerts and festivals during the year. Evening and weekend performances are required.

COURSE DESCRIPTIONS – PHYSICAL EDUCATION

Physical Education Uniform Student are required to wear the LAHS Physical Education uniform which may be purchased in the student store with the Finance Office. If a student is not dressed out for class they are still required to participate and receive 70% for the class.

Medical Excuse Policy Our department policy is that a student with a medical issue may be excused from participating for up to three days with a note from a parent. If a student is requesting to be excused for more than three days a doctor's note is required. Doctor's notes should state clearly what activities the student is able to participate in and what they are not. If we can assign them an appropriate activity they can receive at least partial participation points for the day.

GRADE 9 PE PO1010/PO1020

| Grade 9 | Sem. | Units – 5 |

| N | Level | |

Individual and dual activities, wellness and aquatics:

Grade 9 will meet the California State Standards for Physical Education through individual and dual activities, such as badminton, tennis, pickle ball, table tennis, fitness, wellness and aquatics. These units are designed to develop self-awareness and a desire to learn life-long skills for maintaining personal fitness. The wellness unit focuses on stress reduction and character choices. Students will take the mandatory California State Fitness Test and need to pass five out of six tests.

GRADE 10 PE PO1030/PO1040

| Grade 10 | Sem. | Units – 5 |

| N | Level | |

Yoga and Movement is a year-long PE course offered to 10th-12th graders who have passed their physical exams. In the course students will learn the fundamentals of yoga, and grow in strength, flexibility, and balance through the yoga practice and other physical movements. The class will focus on both the physical and mental elements of yoga.

COURSE DESCRIPTIONS – PHYSICAL EDUCATION

ATHLETICS – Fall, Winter and Spring

Sports

Also see COURSE DESCRIPTIONS –
ATHLETICS

Fall Sports

Cross Country, Girls' Field Hockey, Football, Girls' Golf, Girls' Tennis, Girls' Volleyball, and, Boys' and Girls' Water Polo.

All fall sports start a week before school and run approximately through the second week of November. Each sport practices every day for two hours. No Sundays.

Winter Sports

Boys' and Girls' Basketball, Boys' and Girls' Soccer, and, Wrestling.

All winter sports start the final Monday in October and run through the second week of February. Each sport practices every day for two hours. No Sundays.

Spring Sports

Badminton, Baseball, Boys' Golf, Girls' Gymnastics, Boys' and Girls' Lacrosse, Softball, Boys' and Girls' Swimming, Boys' and Girls' Diving, Boys' Tennis, Boys' and Girls' Track and Field, and, Boys' Volleyball.

All spring sports start the final Monday in January and run through the first week of May. Each sport practices every day for two hours. No Sundays.

COURSE DESCRIPTIONS – SCIENCE

The University of California requires two years and recommends three years of laboratory science providing fundamental knowledge in two of the following subject areas: biology, chemistry and physics. Advanced placement (AP) courses in science are taught as second-year subject courses and are recommended for students who have successfully completed the first-year honors level course.

BIOLOGY CC1010

| Grades 9-12 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Course comparison information sheet is provided at the end of the department section

This college preparatory course involves the study of life and the inter-relationships that exist among all living organisms and their environment. The teaching of biological concepts involves the completion of laboratory experiments using college level equipment, lecture/discussions, videos, projects, and reading and writing assignments. Students will develop laboratory skills as well as science literacy. Biology is a course for students intending to take more advanced science courses and plan to attend a four-year college.

BIOLOGY HONORS CB1010

| Grades 9-12 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Course comparison information sheet is provided at the end of the department section

Biology is the study of living organisms, and this course is designed to help the student better understand the relationships between organisms and their environment. It will be conducted at an advanced rate compared to general biology and students are expected to work accordingly. In addition, students will be reading two novels outside of class. Topics covered in this college preparatory biology course include: the nature of science, the classification and characteristics of living things, biochemistry and energetics, cell structure and function, evolution, Mendelian and molecular genetics, plant and animal systems, and ecology. An inquiry-based method of learning is used as well as

reading, note taking (lectures and book), lab experiments, and group/class discussions.

AP BIOLOGY CA1010

|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: Grades of B or above in Biology Honors, Chemistry Honors, and Algebra II

This rigorous second year biology course is designed to be equivalent to an introductory biology course taken in the first year of college. If you enjoy learning about Biology, this is the course for you. If not, looking for another option to fulfill your science requirement is recommended. There are four main principles or “Big Ideas” prescribed by the College Board that will be covered over the course of the year: (1) Evolution, (2) Cellular Processes - Energy and Communication, (3) Genetics and Information Transfer, and (4) Interactions. In addition to submitting reports on the intensive labs that accompany each unit, students should expect 45 minutes to 1 hour of homework each night. The intent of this course is to provide students a better understanding and appreciation for how life works. AP Biology will also prepare students for a successful outcome on the Advanced Placement examination in May. It is the expectation of the instructor that all students enrolled will take the exam.

COURSE DESCRIPTIONS – SCIENCE

CHEMISTRY CC2010

| Grades 10-12 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Course comparison information sheet is provided at the end of the department section

Chemistry is a course designed to develop student understanding of the basic concepts and techniques of general chemistry. Topics include the atomic structure, stoichiometry, solution chemistry, kinetic molecular theory, and acid-base reactions. This course emphasizes mastering techniques of chemical exploration through regular laboratory exercises and the application of principles in group activities. An adequate level of problem solving skills, reflected by his/her mathematics background, is required for success.

This is a second year chemistry course designed to be the equivalent of a general chemistry course in the first year of college. Topics include: atomic theory and structure, periodic relationships, nuclear chemistry, thermodynamics, states of matter, reactions types, equilibrium, kinetics, laboratory measurements, and descriptive chemistry. The intent of this course is to prepare students to take the Advanced Placement Chemistry examination in May, and it is the expectation of the instructor that all students enrolled will take the exam.

CHEMISTRY HONORS CB2010

| Grades 10-12 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Course comparison information sheet is provided at the end of the department section

Chemistry Honors is a course designed to develop an in-depth and detailed understanding of the nature of matter. Through lectures, weekly labs, homework, and projects, we focus on strengthening logical reasoning processes, enhancing problem solving strategies, and developing skills in organizing the products of scientific thought and experimentation into coherent reports. The fundamental concepts of chemistry are covered as well as advanced topics in electrochemistry, nuclear chemistry, thermos-chemistry, and oxidation-reduction reactions.

AP CHEMISTRY CA2010

| Grades 11-12 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: Concurrent enrollment in Trigonometry/Math Analysis; grades of A- or above in Biology Honors and Chemistry Honors is recommended.

COURSE DESCRIPTIONS – SCIENCE

PHYSICS

CC3010

| Grades 11-12 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: Concurrent enrollment in Trig/Math Analysis. Completion of Algebra II and Chemistry with passing grades. Students need to be interested in science and enthusiastic about learning.

Physics is the branch of science concerned with the nature and properties of matter and energy. This high school level course will introduce students to concepts in physics and describe them using algebra and right triangle geometry. Topics include kinematics, Newton's laws of motion, work & energy, impulse & momentum, plate tectonics, electrostatics, electric circuits, magnetism, geometric optics and wave phenomena. Instructional approaches include lectures, demonstrations, laboratories, class discussions, free response questions, homework sets, quizzes and tests.

AP PHYSICS I

CA3010

| Grades 11-12 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: Concurrent enrollment in Trig/Math Analysis or higher level math. Completion of Algebra II and Chemistry with a grade of B or higher. Students need to have very strong math skills for this course.

This AP level course will introduce students to algebra-based physics. Topics covered in this course include kinematics, Newton's Laws of motion, circular motion, energy, momentum, wave phenomenon, electrostatics, and DC circuits. Students will use algebra, right triangle geometry and physics concepts to build and apply mathematical models to make predictions of naturally occurring phenomenon. This course has an extensive laboratory component. This course requires students to have a strong work ethic, and be able to work independently. Students are expected to take the AP Physics 1 exam in May.

AP PHYSICS C

CA3041

| Grades 11-12 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: Grade of B or better in AP Calculus and completion of Physics or AP Physics 1 with a grade of B or better. Concurrent enrollment in AP Calculus is a minimum requirement.

This is a second year, calculus based physics course designed to be the equivalent of a general physics course taken in the first year of college by physical science or engineering majors. This course is designed to prepare students to pass the College Board's AP Physics C - Mechanics exam and the AP Physics C Electricity and Magnetism exam. Topics include: kinematics with aerodynamic drag, Newton's laws of motion, work and the conservation of energy, impulse and the conservation of momentum, rotational dynamics, universal gravitation and simple harmonic oscillators. Labs will emphasize experimental design, data collection and analysis using probware and spreadsheets. Symbolic mathematics will be used to create models of natural systems. Instructional approaches include lectures, demonstrations, laboratories, class discussions, free response questions, homework sets, quizzes and tests.

ENVIRONMENTAL SCIENCE

CC4010

| Grades 9 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Course comparison information sheet is provided at the end of the department section

This course is designed to be an introduction to environmental sciences. The Environmental Science course integrates information and ideas from the natural sciences, such as biology (ecology, conservation), chemistry (chemical cycles, chemistry of water, soil, and air), physics (energy), and earth sciences (geology, oceanography). The goal is to learn how natural Earth systems function and how humans interact with these natural systems. We will also focus on human impacts on the environment and solutions to environmental problems. Students will increase their awareness of environmental issues and learn how to live more sustainably.

COURSE DESCRIPTIONS – SCIENCE

AP ENVIRONMENTAL SCIENCE CA4010

| Grades 11-12 | Y | Credits – 10 |
|--------------|-------------------------|--------------|
| Science | HS Graduation Req. | |
| d | Univ. of Calif. Req. | |
| d | Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: Grades of A- or above in Biology and Chemistry

AP Environmental Science is designed to be the equivalent of an introductory college course in environmental science. The goal of the AP Environmental Science course is to provide students with scientific principles, concepts and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving or preventing them. The AP Environmental Science course is an excellent option for any interested student who has completed two years of laboratory science in Biology and Chemistry.

The course includes laboratory and field investigations. The goal of this component is to complement the classroom portion of the course by allowing students to learn about the environment through firsthand observation. Experiences both in the laboratory and in the field provide students with important opportunities to test concepts and principles that are introduced in the classroom, explore specific problems with a depth not easily achieved otherwise and gain an awareness of the importance confounding variables that exist in the “real world”.

COURSE DESCRIPTIONS – SCIENCE

HUMAN BIOLOGY CC0010

| Grades 10-11 | Y | Credits – 10 |
|-------------------|---|--------------|
| Science d d | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

Human Biology will explore the traditional life science covered depth study of the human body and its processes. Topics covered course include: the nature of science, biochemistry and energetics, and mendelian and molecular genetics. Each of these topics will be body systems (i.e. digestive, circulatory, etc.). An inquiry-based reading, note taking (lectures and book), lab experiments, online discussions.

BIOTECH CC1050

| Grades 11-12 | Y | Credits – 10 |

| CP | Level | |

Biotechnology is a one-year laboratory course that emphasizes the application of biology, chemistry and physics concepts in the investigation of DNA science. The course will address the history and applications of DNA/RNA technology, biochemistry, microbiology, molecular biology and manipulation of DNA, bioethics, protein analysis, immunological applications, and laboratory safety practices. Students carry out investigative activities to deepen their understanding of scientific principles and the very nature of scientific thinking. They will develop laboratory, critical thinking, and communication skills currently used in the biotechnology industry. Through extensive reading, laboratory work, and workplace experience, they will explore and evaluate career opportunities in the field of biotechnology. Students will utilize a broad range of laboratory procedures and laboratory apparatus used in the biotechnology laboratory and will document their work in a scientific notebook.

FORENSICS CC4020

| Grades 11-12 | Y | Credits – 10 |
|---------------------|---|--------------|
| Electives g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Recommendations: Biology with a C or better, Chemistry or Physics with a C or better, Algebra II with a C or better

Forensic science (criminalistics) is an introduction to the analysis of crime scenes by collecting and analyzing physical evidence. This course is designed to integrate the core scientific disciplines while giving students both theory and hands-on experience with the skills and knowledge required of a forensic crime scene investigator. This multidisciplinary course will cover topics in biology, chemistry, physics, technology, earth science, math, social studies and language arts. Sample evidence for analysis will include fingerprints, DNA, handwriting, trajectories, hair, fiber, toxicology, blood spatter patterns, ballistics, chromatography, forgery and tool marks. Students will be asked to use process skills including comparative analysis, critical thinking, deductive reasoning, interviewing, observation, organization, problem solving, research, communication, evidence collection and technical reading. *Students should be aware of the sensitive/serious nature of the material presented and be ready to respond in a mature manner.*

ADVANCED SCI INVESTIGATION CC1060

| Grades 12 | Y | Credits – 10 |
|-----------------------|---|--------------|
| Science d/g d/g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: Biology A or Bio Honors B or better; Chemistry A or Chem Honors B or better. Either completion or concurrent enrollment in Physics. If interested in Biology project it is highly recommended to have or be enrolled in Biotech and/or AP Biology.

This course is being designed as a capstone course for our science department. Students taking this course are some of our best students who have completed a number of AP/Honors courses in Biology, Chemistry, and Physics.

Students enrolled in this class will develop scientific questions that they are interested in. They will then learn how to research this question by accessing primary research sources and ultimately develop a research plan. It is expected that students will then independently do the research during class and ultimately report their findings at the end of the year via a formal presentation. Along the way they will learn how to conduct a literature review, how to

COURSE DESCRIPTIONS – SCIENCE

develop a research proposal, how to execute their research plan, and ultimately present their research findings to their peers and teachers.

COURSE DESCRIPTIONS – SOCIAL STUDIES

The University of California requires 2 years of history/social science, including:

- One year of world history, cultures and geography (may be a single yearlong course or two one-semester courses), and
- One year of U.S. history or one-half year of U.S. history and one half year of civics or American government.

WORLD STUDIES

EC1010

| Grade 9 | Y | Credits – 10 |
|----------------|-------------------------|--------------|
| Global Studies | HS Graduation Req. | |
| a | Univ. of Calif. Req. | |
| a | Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

This is an introductory social studies course for all ninth graders. Focusing on political, social, and cultural history, it examines the development of the major regions of the world. There is also an emphasis on geography, its significance to world history, and the development of important study skills. The course gives students both a historical outlook and a contemporary view of the world through the theme of increasing interdependence among nations.

CONTEMPORARY WORLD ISSUES EC1110

| Grade 10 | S | Credits – 5 |
|------------------------------|-------------------------|-------------|
| Global Studies/Indiv. & Soc. | HS Graduation Req. | |
| a | Univ. of Calif. Req. | |

| None | Recommendations | |
| CP | Level | |

This course is the third semester continuation of the ninth grade World Studies course. Students in this class examine the world's political, economic and cultural history from World War I to the present. Students will continue to develop the foundational social science and general study skills that will help to promote success in junior and senior year offerings in the department. This is a required course, except for students who elect AP European History instead.

AP HUMAN GEOGRAPHY*

EA5010

| Grades 10 | Y | Credits – 10 |
|------------------------------|-------------------------|--------------|
| Global Studies/Indiv. & Soc. | HS Graduation Req. | |
| a, g | Univ. of Calif. Req. | |
| a, g | Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: A- or better in previous social studies classes.

*AP Human Geography will be held based on student enrollment.

AP Human Geography is a one-year college level course that is the curricular equivalent of an introductory college-level class in human or cultural geography. The course themes are organized around the discipline's main subfields: economic, cultural, political, and urban geography with a spatial and problem oriented approach. The goal for students is to be more geoliterate, more engaged in contemporary global issues, and more multicultural in their viewpoints. Specific human geography skills that will be developed over the course of the year include approaching problems geographically, utilizing maps and geospatial technologies, thinking critically about both visual and written documents, interpreting cultural landscape, and applying geographical concepts to our modern world. Moreover, students will need to utilize an interdisciplinary approach in their critical thinking in order to read academic writings, create well-constructed essays and research reports, and work collaboratively to analyze real-world issues and controversies. Students will learn to see geography as a discipline that is integral and relevant to the world they live in and as a medium in which to solve problems to build environmental stewardship and global citizenship. Students are expected to take AP exam in May.

AP EUROPEAN HISTORY

EA2010

| Grades 10-12 | Y | Credits – 10 |
|------------------------------|-------------------------|--------------|
| Global Studies/Indiv. & Soc. | HS Graduation Req. | |
| a | Univ. of Calif. Req. | |
| a | Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: A- or better in previous social studies classes.

This course is designed to be an examination of the development of the intellectual/cultural, political/diplomatic and social/economic history of modern Europe. This statement should be viewed with a bit of healthy skepticism. To cover this much history in any depth or breadth is a difficult task. The trap associated with covering this much human activity in a single academic course is to become overly involved in the history of events. As one historian puts it, historical events are mere "crests of foam that the tides of history carry on their strong

COURSE DESCRIPTIONS – SOCIAL STUDIES

backs." The essential criticism of this type of history is that it is superficial. Historical events are the reflections of much deeper human happenings and trends. Our goal is to identify these deeper currents in European history, give meaning to these events and trends, and place them in a paradigm that makes sense to us today. Students are expected to take AP exam in May.

PSYCHOLOGY* EC4310

| Grades 10-12 | S | Credits – 5 |
|----------------------------------|---|-------------|
| Indiv. & Soc./Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

*Course is offered based on student enrollment.

This course provides an introduction to psychology, the study of the mind and behavior. Students learn about themselves and the reasons behind their thinking and actions. Areas of study include the brain, sensation and perception, learning, personality, influential psychologists, dreams, E.S.P., the nature of intelligence, and abnormal behavior. This course does not replace an introductory college course but has proven to be extremely helpful to students interested in studying psychology in college.

AP PSYCHOLOGY* EA4030

| Grades 11-12 | Y | Credits – 10 |
|----------------------------------|---|--------------|
| Indiv. & Soc./Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: C or better in previous social studies classes.

*AP Psychology will be held based on student enrollment.

This course is to introduce the systematic and scientific study of the behavior and mental processes of human beings and other animals. Included is a consideration of the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. Students also learn about the ethics and methods psychologists use in their science and practice. The aim is to provide a learning experience equivalent to that obtained in most college introductory psychology courses.

U.S. HISTORY EC3010

| Grade 11 | Y | Credits – 10 |
|------------------------|---|--------------|
| U.S. History a a | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

United States History is a college prep course in which students examine major turning points in US history. The year begins with a selective review of US history in the eighteenth and nineteenth centuries, and will thereafter emphasize events and trends in the twentieth century. During the year, certain themes will be emphasized: the realities of conquest and colonization at the root of US history; the different meanings of revolution; the role of religion in shaping US culture; the expanding role of the federal government and courts; the emergence of a modern corporate economy; the impact of technology on US society and culture; changes in the ethnic composition of US society; the role of people's movements for equal rights and liberation in making history; and the role of the US as a major world power.

GLOBAL CONNECTIONS B DC5041

| Grade 12 | Y | Credits – 20 |
|---|---|--------------|
| Eng./Civics/Indiv. & Soc.** a, b, g a, b, g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

Students in this college preparatory course learn about events and issues from around the world with a particular focus on Asia, Africa, and Latin America. They ask questions which lead them into areas of study such as education, science and technology, religion, history, politics, and the arts. The course allows students to consider questions through multiple perspectives (different disciplines, different cultures or nations, etc.)

Students attend class in a two-period block each day. At least one of these periods is devoted to smaller group (regular class size) discussion. The other period often involves large group instruction that can take the form of teacher presentation, guest speakers, performances, panel presentations, or a multimedia format. A team of teachers working cooperatively teach the two periods.

**Students earn 20 credits in this course. It fulfills graduation requirements in English (10 credits), Civics (5 credits, earned 2nd semester), and Individual and Society (5 credits).

COURSE DESCRIPTIONS – SOCIAL STUDIES

AP U.S. HISTORY

EA3010

| Grade 11 | Y | Credits – 10 |
|---------------------|---|--------------|
| U.S. Hist a a | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: A- or better in previous social studies classes.

AP US History is a one-year college level course in which students examine major turning points and cultural themes in the history of US. The AP in the title signals: (1) a **highly accelerated** pace and level of learning, (2) a course geared to students motivated and appreciative of history and (3) a course for which college credit can be earned through completion of the course and taking of the AP Test. The year will cover American History from the exploration period into the 2000s emphasizing the following themes: the changing demographics and diversity of the American population, the struggle between the majority and minority in politics, the conflict over the shape and direction of reform and change in society, the characteristics of past and present American economies, the expanding role of the federal government and the role of the courts, the impact of technology on American society, the role of the US as a world power, the evolving geopolitical and global economic role of the US, the growth of culture (including literature, art, philosophy, music, theater, film, etc) environmental issues (such as conservation and dependence of natural resources), the role and influence of religion upon American institutions, and examination of what it means to be "American." Instructional techniques will include projects, group work, direct instruction, critical analysis of primary articles, research, artistic interpretation, peer critiques, kinesthetic activity, debate, interviews of historical experts, and student creations of learning exercises.

CIVICS

EC4010

| Grade 12 | S | Credits – 5 |
|------------------|---|-------------|
| Civics a a | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

This course involves discussion and analysis of the main issues confronting American government in the context of our political and legal system. Students study the structure of our government and learn how to be participating citizens. Topics such as the legislative/executive/judicial system, administration of justice, foreign policy, and the government's role

in solving national economic and social problems are covered.

AP US GOVERNMENT & POLITICS EA4010

| Grade 12 | S | Credits – 5 |
|------------------|---|-------------|
| Civics a a | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: A- or better in previous social studies classes.

AP Government is a rigorous, one semester in-depth study of the American government and political system. Students will study and demonstrate mastery of constitutional underpinnings; political beliefs and behaviors; influences upon government; institutions of government; public policy; and civil rights and liberties. Students are required to take the AP Government Examination in May and therefore assessments will focus on essay writing as well as objective test taking. Students should plan on an average of one hour of homework every night.

ECONOMICS

EC4020

| Grade 12 | S | Credits – 5 |
|---------------------|---|-------------|
| Economics g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

This one-semester course provides an overview of the field of economics. Students are introduced to economic theories with an emphasis on practical applications. Topics in both microeconomics and macroeconomics are covered.

AP MICROECONOMICS

EA4020

| Grade 12 | S | Credits – 5 |
|---------------------|---|-------------|
| Economics g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: A- or better in previous social studies classes.

AP Microeconomics provides an understanding of the role of individual decision makers within the economic system. This includes individuals as both producers and consumers, and businesses. Specific concepts covered include the nature and functions of product markets and factor markets, market structures including competition, oligopoly and

COURSE DESCRIPTIONS – SOCIAL STUDIES

monopoly, optimization behavior by both individuals and firms, market failures, and the role of government in correcting market failures. The course will prepare students to pass the College Board Microeconomics AP exam and receive college credit.

COURSE DESCRIPTIONS – SPECIAL EDUCATION

Eligibility for special education is based on a thorough assessment consisting of both academic and psychological testing. Placement in special education is determined at an Individualized Education Plan (IEP) meeting.

The Special Education Department provides services to students with learning and other disabilities. There are two primary programs available: the **Resource Specialist Program (RSP)** and the **Special Day Class (SDC)** program. In an on-going effort to better serve students' needs and meet state and federal mandates for least restrictive environment, students often see more than one teacher within the department.

For more information and courses offered, please contact the Special Education District Office at (650) 940-4657 or the LAHS Department Coordinator at [\(650\) 960-8837](tel:6509608837).

INNOVATIVE DESIGN ESSENTIALS BC2045

| Grades 9-12 | Y | Credits – 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Prerequisites | |
| CP | Level | |

Students will engage in projects demonstrating proficiency in design thinking through the application of skills in the following areas:

- Art and design concepts
- Robotics and coding
 - VEX – RobotC
 - Arduino – Java
- Prototyping with 3D printers and laser cutters
 - TinkerCAD, Fusion360, or other modeling environment

- Adobe Illustrator

- User empathy and understanding the complexities of real world problems

Students will participate in design teams of 3 to 4 other students to address a challenge or problem in their community. They will spend the year applying their learning of design thinking to create a solution to their chosen problem. The focus of this problem oriented design thinking is to push past the desire to design for yourself and to understand what is needed to properly design and create with another user or group of users in mind. Experience with the technical skills listed above is appreciated but not required.

INTRO TO COMPUTER SCIENCE (CS)

BC1010

| Grades 9-12 | Y | Credits - 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: B- or above in Algebra I.

This is a full year course based on UC Berkeley's CS10. This course is geared towards students who want to gain skills in computer programming or get prepared for AP CS. No prior experience is required.

Students will work with SNAP (a drag-and-drop programming language) to learn critical thinking, logic, and problem solving skills and then with Java where they will apply their knowledge of algorithms to code in a written format. Concepts learned include variables, functions, 1D and 2D arrays, and object oriented programming. The objectives of this course are that students will:

- develop computer programming skills such as abstraction, logic, and algorithmic thinking.
- develop projects using object-oriented principles.
- become prepared for problem solving skills in the AP Computer Science course.
- increase their awareness of computer science as a career and life skill.

COURSE DESCRIPTIONS

TECHNOLOGY ENGINEERING AND DESIGN

AP COMPUTER SCIENCE BA1010

| Grades 10-12 | Y | Credits - 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| AP | Level | |

Recommendations: Algebra II with concurrent enrollment in Trigonometry/Math Analysis.

The goals of the AP Computer Science are comparable to those in the introductory course for computer science majors offered in college and university computer science departments. It is not expected, however, that all students in the AP Computer Science will major in computer science at the university level. The AP Computer Science is intended to serve both as an introductory course for computer science majors and as a course for students who will major in other disciplines that require significant involvement with technology. It is not a substitute for the usual college-preparatory mathematics courses.

Students should be able to:

- design and implement solutions to problems by writing, running, and debugging computer programs.
- use and implement commonly used algorithms and data structures.
- develop and select appropriate algorithms and data structures to solve problems.
- code fluently in an object-oriented paradigm using the programming language Java. Students are expected to be familiar with and be able to use standard Java library classes from the AP Java subset.
- read and understand a large program consisting of several classes and interacting objects. Students should be able to read and understand a description of the design and development process leading to such a program. (An example of such a program is the *AP Computer Science Case Study*.)
- recognize the ethical and social implications of computer use.

INTRO TO ENGINEERING DESIGN BC2010

| Grades 9-12 | Y | Credits - 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Recommendations | |
| CP | Level | |

Recommendations: B- or above in Algebra I.

This course is the foundational course for the engineering pathway designed by Project Lead the Way, and is a prerequisite for all other subsequent PLTW engineering courses. In this class, students will dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects. They will learn the standards of technical drawing and will work both individually and in teams to design solutions to a variety of problems using the 3D modeling software, Autodesk Inventor. Students will use an engineering notebook to document their work, and will begin to develop a personal portfolio that they can carry with them into their collegiate and professional careers.

PRINCIPLES OF ENGINEERING BC2011

| Grades 10-12 | Y | Credits - 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: C- or above in Intro to Engineering Design

Recommendations: B- or above in Geometry

Through problems that engage and challenge, students explore a broad range of engineering topics, including mechanisms, the strength of structures and materials, electrical circuits, and automation. Students develop skills in problem solving, research, and design while learning strategies for design process documentation, collaboration, and presentation.

COURSE DESCRIPTIONS

TECHNOLOGY ENGINEERING AND DESIGN

AEROSPACE ENGINEERING BC2012

| Grades 11-12 | Y | Credits – 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Prerequisites: Intro to Engineering Design or Principles of Engineering

Recommendations: B- or above in Geometry

This is a third year Engineering course for Project Lead the Way, and will be held based on student enrollment.

This course propels students' learning in the fundamentals of atmospheric and space flight. As they explore the physics of flight, students bring the concepts to life by designing an airfoil, propulsion system, and rockets. They learn basic orbital mechanics using industry-standard software. They also explore robot systems through projects such as remotely operated vehicles.

DESIGN AND PROTOTYPING BC2040

| Grades 9-12 | Y | Credits – 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

Recommendations: B- or above in Geometry or Algebra II

To introduce students to the ideas of engineering and design through a prototyping process that begins with a problem and follows a standard engineering process of conceptualizing a solution testing and re-testing of prototypes, and redesign of original concept.

Enrolled students will engage in computer aided design and modeling beginning in two dimensions and progressing to three dimensions. Students will not only learn the software behind 21st century design but also the hardware through hands on experience with a laser cutting system three dimensional printers, and computer numerically controlled router systems. Design software includes Adobe Illustrator, CorelDRAW, TinkerCAD, and Fusion 360. Students will engage in collaborative group projects with peers of varying skill levels and backgrounds to produce real products. The course

teaches and follows a typical industry style prototyping process where much of the learning occurs through product component failure and re-design. Groups will design a solution to an engineering challenge at the end of the year that is realized through the various media presented throughout the class.

DESIGN AND FABRICATION BC2041

| Grades 10-12 | Y | Credits – 10 |
|--------------------|---|--------------|
| Elective g g | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See below | Prerequisites | |
| CP | Level | |

No Prerequisites but Recommendations:
B- or above in Geometry or Algebra II, and
B- or above in Design and Prototyping

In this course students will continue to develop prototyping and fabrication skills using larger manual machines that provide the largest flexibility for product development. Students will work in varying sized groups to design and create full sized products that fit within different assigned categories using modern design software, rapid prototyping machines and full scale wood and metal working tools. Students will be taught to safely use modern machine shop tools such as mills, lathes and routers to create full sized, working prototypes. Students will be led through the process of creation from brainstorming ideas to building hand crafted finished products.

ROBOTICS I BC2060

| Grades 9-12 | Y | Credits – 10 |

| CP | Level | |

An introductory course teaching the basics of engineering and the process of engineering design and construction. Students will learn the foundational skills necessary for a competition robotics team: computer aided design, machining, assembly, code, basic physics, and electronics. Students will work in collaborative groups designing robots to address various engineering challenges. Students enrolled will automatically be considered part of FIRST Robotics Competition Los Altos Robotics Team 114 Eaglestrike and are expected to join the team at competition and devote significant time to engage in the primary robot build in January and February.

A second+ year course for veteran robotics team members. This course is primarily focused on continuing skill development around the FIRST competition. In the fall, students will engage in off-season projects and rebuilds to improve and prepare for multiple off-season competitions. Veterans are expected to train new team members in skill development in preparation for build season in January and February. During build season veterans will lead design teams guiding other team members through components of the primary robot build. Students enrolled will automatically be considered part of FIRST Robotics Competition Los Altos Robotics Team 114 Eaglestrike and are expected to join the team at competition and devote significant time to engage in the primary robot build in January and February.

ADEN – Advanced Data Structures and Embedded Systems and Networking BC1030

| Grades 11-12 | Y | Credits – 10 |
|--|---|--------------|
| Practical Art/Elective Pending Pending | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See Counselor | Prerequisites | |
| CP Pending | Level | |

Newly proposed course; see TED department coordinator or counselor for information and prerequisites.

Recommendations: AP Computer Science or Teacher Approval.

ADEN builds upon the concepts and skills learned in AP Computer science. During first semester, students will explore and use advanced data structures such as Queues, Trees, Maps, Hashes and Graphs, applying them to solve complex problems and evaluate performance tradeoffs of different implementations. Collaborative projects will provide opportunities to develop experience with formal documentation, testing and revision control. During second semester, students will explore a variety of topics, including Embedded System where they will use C and Assembly language to program a robot to autonomously navigate through several challenges, including controlling motors, reading

sensors, implementing finite state machines and prioritizing interrupts and sampling intervals. In addition, students will explore different types of networks, understand network protocols and routing, router configuration and security concerns and writing software to access across a network. Finally, students will learn basic structures of a relational database, write queries to extract data and analyze it to answer questions.

INNOVATIVE DESIGN CAPSTONE BC2050

| Grades 12 | Y | Credits – 10 |
|--|---|--------------|
| Practical Art/Elective Pending Pending | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| See Counselor | Prerequisites | |
| CP Pending | Level | |

Newly proposed course; see TED department coordinator or counselor for information and prerequisites.

This course follows two years of prior engineering, computer science or architectural design coursework and gives students the freedom to propose, design and refine their own project or professional certification. Students are expected to work in teams and collaborate on a long-term project utilizing emerging technologies and a range of skills. Students will present their project proposal to an industry panel and will receive feedback on their progress. Project proposals may fall under any of a variety of TED pathways including mechanical, civil, software or electrical engineering, computer science, app and game design, product design, architectural design, or other subjects as approved by the instructor. Students will follow their project through from conception to completion during the course of the year, and will document their design and manufacturing process as they develop a professional quality product. In addition to the specific design and technology skills that their project demands, students will develop skills in field research, project management, teamwork, leadership, time management, customer relations, budget management, and community outreach.

This two-semester program with an additional second year of training available prepares students for food production, preparation and service employment in institutional, commercial or independently owned food establishments or other food and hospitality industry occupations. Instruction includes topics such as planning, selecting, storing, purchasing, preparing, testing, serving and selling of quality food and food products. The program includes the basic skills of food service including sanitation, safety, methods of cooking, stocks, soups, sauces, methods of baking, pastry, banquet set up, catering, nutrition, and job preparation. Teaching methods include demonstration, laboratory, and textbook work. Students have an opportunity to cook both individually and in groups and to participate in planning meals. During the second semester students are counseled to participate in “on the job training.” On the job training may be completed at fast food restaurants, coffee shop operations, on-site food service, or in independent living retirement centers. This may be followed by actual employment at these sights. This experience has the potential to lead to actual employment opportunities.

| NCP | | Level |

Prerequisites: Culinary I or instructor approval.

This course prepares the student to work in the food service industry. The program prepares students with food production, preparation and service skills for employment in institutional, commercial or independently owned food establishments or other food and hospitality industry occupations. Instruction includes topics such as planning, selecting, storing, purchasing, preparing, testing, serving and selling of quality food and food products. Students are expected to meet a higher level of performance in the quantity and quality of their assigned work. The students will learn intermediate level skills, both theoretical and practical, performed in the dining room and kitchen restaurant operations. Teaching methods include demonstration, laboratory and textbook work. Training areas covered in this course will include food service facilities and equipment; quality food purchasing and costing; health and safety regulations and practices; skills in food preparation and service and practical experience in such food service jobs. Integrated throughout the course are career preparation standards, which include basic academic skills, communication, interpersonal skills, problem solving, safety technology and other employment skills. The full Serve-Safe curriculum and certification is a major emphasis of this course. State law dictates every food facility must have one or more certified employee.

*Level 1 is okay as a second language in World Language Department once students have completed two consecutive years of another language other than English.

COURSE DESCRIPTIONS – WORLD LANGUAGE

The University of California/California State University requires 2 years of college-preparatory world language of the same language, other than English, or equivalent to the second-level of high school instruction.

FRENCH I FC1010

| Grades 9-12 | Y | Credits – 10 |
|--------------------------|---|---|
| World Language e e | | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. |
| None | | Recommendations |
| CP | | Level |

This course is designed for beginning language students and students who have had less than one year of prior language study. It provides the basis for the continuing study and use of French. With an emphasis on conversation and practical application, the student is taught to understand, speak, read, and write the language. A working vocabulary is developed in context as are the basic grammatical structures in the language. In addition to listening and oral drills, there are readings, written grammatical exercises, creative writing opportunities, and original dialogue performances. Students are introduced to culture and customs through skits, music, videos, food, and online resources.

FRENCH II FC1011

| Grades 9-12 | Y | Credits – 10 |
|--------------------------|---|---|
| World Language e e | | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. |
| See below | | Recommendations |
| CP | | Level |

Recommendations: C- or better in French I.

This course continues the work of the first year in all four language skills: speaking, comprehending, reading, and writing. The goal of the second year is to give students a working knowledge of French. Contemporary topics, vocabulary, and culture are stressed. A variety of activities, including skits and videos, are included to enhance students' understanding of life in foreign countries and their use of the language.

FRENCH III FC1012

| Grades 9-12 | Y | Credits – 10 |
| World Language e e | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

Students will begin their study of Classical Latin. Students will complete daily homework assignments, showing their work by labeling or color-coding, and having completed translations. They will demonstrate their comprehension of Latin via chapter quizzes and unit exams. They will investigate various aspects of the Ancient Mediterranean (Mythology, Culture, History, Art, etc.) via monthly group projects and a weekly podcast assignment. They will improve their English vocabulary and grammar by learning Latin vocabulary and grammar. By June, students will recognize the relevance of Latin in both our local and global society. This course is academically rigorous and requires dedication and enthusiasm.

LATIN II FC3011

|--------------------------|---|--------------|
| Grades 10-12 | Y | Credits – 10 |
| World Language e e | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

Recommendations: C- or better in Latin I.

Students will continue their study of classical Latin. Students will complete daily translation homework assignments. They will demonstrate their comprehension of Latin via chapter quizzes and unit exams. They will investigate the history of Roman looking at topics such as: daily life, politics, and war, via monthly group projects and a weekly podcast assignment. They will continue to expand their English vocabulary and will become experts on English grammar through learning Latin grammar. They will learn advanced aspects of Latin grammar including: participles, the passive voice, and uses of the subjunctive mood. This course is academically rigorous and requires dedication and enthusiasm.

LATIN III FC3012

| | | |
|--------------------------|---|--------------|
| Grades 10-12 | Y | Credits – 10 |
| World Language e e | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommendations | |
| CP | Level | |

Recommendations: C- or better in Latin II.

Students will complete their study of Latin grammar and move on to translating the works of various classical authors, including: Caesar, Cicero, Pliny, Catullus, Horace, and Ovid. They will work extensively in groups to translate these texts. They will learn exceptions to the rules of grammar learned previously. They will become familiar

with particular authors' styles. They will begin literary analysis of Latin prose and poetry. They will also continue the study of Roman History. Students will demonstrate their knowledge of Roman history and culture via periodic group projects.

LATIN IV AP LATIN FC3013 FA3013

COURSE DESCRIPTIONS – WORLD LANGUAGE

Recommendations: Students who speak Spanish at home **and who have no formal or academic previous experience in a Spanish classroom.**

The Spanish for Spanish Speakers course provides continuing language instruction for students who have developed proficiency in Spanish because it is their first language or is spoken extensively in the home. The course develops all language skills, emphasizing critical reading and writing, as well as the acquisition of academic vocabulary. It provides focused treatment of the culture, literature, and history of the Spanish-speaking world. This course is designed to benefit students of various backgrounds: 1) students born in the U.S. who speak Spanish at home, 2) students born in Spanish-speaking countries who have had some formal education in Spanish, 3) students born in Spanish-speaking countries whose educational experience has been limited to English.

| AP | Level | |

Recommendations: B or better in III, III Honors, III Honors for Spanish Speakers, IV, or AP Spanish Language or equivalent. **Students with a strong work ethic who highly enjoy reading and outstanding homework completion habits.**

At this level, students have a higher degree of competency in all four language skills: speaking, reading, writing and listening. Students read in class and independently interpret selected literary works; discuss contemporary issues as presented through literature in Spanish (from the 15th–20th centuries); have an understanding and appreciation of the history and culture of the people using the language; and interact comfortably with native speakers. The Spanish Literature class prepares students for the Advanced Placement Spanish Literature Exam.

COURSE DESCRIPTIONS – WORLD LANGUAGE

MANDARIN/CHINESE I FC5010

| Grades 9-12 | Y | Credits – 10 |
|--------------------------|---|--------------|
| World Language e e | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Prerequisite | |
| CP | Level | |

Mandarin/Chinese I is designed to provide the basic communicative skills in Mandarin. The student is required to develop a basic mastery of the four language skills: speaking, listening, reading, and writing. The students will learn Hanyu pinyin, radicals, word usages, sentence patterns, basic dialogues and short sentences in real life situations. The course also presents an introduction to the culture/history of the Mandarin/Chinese-speaking world. The students are able to use formulaic language to engage in conversations and appropriate responses in a culturally authentic way. This course is for beginning students or non-heritage speakers only.

MANDARIN/CHINESE II FC5011

| Grades 9-12 | Y | Credits – 10 |
|----------------------------------|---|--------------|
| World Language e e | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| Mandarin/Chinese I or equivalent | Prerequisite | |
| CP | Level | |

Recommendations: C- or better in Mandarin I or equivalent

In this course the students will continue to develop a mastery of the four language skills – speaking, listening, reading, and writing. They will further develop their oral skills, their knowledge of Chinese culture/history, and the skills needed to interact positively with members of the culture. They will become more confident in using the vocabulary studied, becoming more skillful in the conversational use of sentence patterns and structures. They will develop needed skills in reading for content and begin to acquire basic skills in spontaneous composition. They will demonstrate understanding of the general meaning, key ideas, and some details in authentic texts.

MANDARIN/CHINESE III FC5012

| Grades 9-12 | Y | Credits – 10 |
|-----------------------------------|---|--------------|
| World Language e e | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| Mandarin/Chinese II or equivalent | Prerequisite | |
| CP | Level | |

Recommendations: C- or better in Mandarin II or recommendation from teachers.

Mandarin/Chinese III is designed to bring the students to a level where they are able to satisfy most survival needs and many social demands. They are able to show increased spontaneity in speaking. The students have fair

control of basic grammar and can communicate in the different tense forms. They will create more sophisticated sentence structures in both formal and informal situations. The students will be able to describe, narrate, explain information, exchange personal opinions and state the various topics beyond survival needs. Writing will include story narration, reports, summaries, and translations. They will demonstrate understanding of the main idea and key details in authentic texts.

MANDARIN/CHINESE IV* FC5013

| Grades 9-12 | Y | Credits – 10 |
|------------------------------------|---|--------------|
| World Language e e | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| Mandarin/Chinese III or equivalent | Prerequisite | |
| CP | Level | |

Recommendations: C- or better in Mandarin III or recommendation from teachers.

**Mandarin/Chinese IV will be held based on student enrollment.*

Mandarin/Chinese IV is designed to develop students' four communications skills: listening, speaking, reading, and writing. Students will also acquire more vocabulary and grammar patterns. At the end of the year, students will be able to produce and present their own viewpoints of events by using the Chinese language in both spoken and written forms. This course also provides students with the opportunity for cultural enrichment. The objective of this course is to help students master their abilities in reading, writing, speaking and listening and to respond to and express ideas with accuracy and fluency. During the yearlong course, students communicate exclusively in Chinese when speaking and writing. Likewise, their exposure to instruction, reading and auditory input is primarily in Chinese.

MANDARIN/CHINESE IV HONORS FB5014

Recommendations: B+ or better in Mandarin III or recommendation by teachers. **Students with a strong work ethic and outstanding homework completion habits.**

Mandarin/Chinese IV Honors is designed to enable the students to participate extensively in the life of the Chinese society. The students should be able to manipulate most social situations and casual conversations regarding current events. They will be able to discuss, compare and contrast, support or persuade an opinion in various topics. Grammar and writing skills will be reviewed and refined in the context of cultural studies, which will include the study of Chinese idioms, proverbs,

COURSE DESCRIPTIONS – WORLD LANGUAGE

literature, art, music and customs. They will demonstrate understanding of the main idea and details in authentic texts. They are able to use extended paragraphs to produce formal communications related to the external environment. **This class is conducted primarily in Mandarin and is considered a Pre-AP class.**

AP MANDARIN/CHINESE LANGUAGE/CULTURE

FA5013

| Grades 9-12 | Y | Credits – 10 |
|--|---|--------------|
| World Language e e | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| Completion of previous level with a grade of "C-" or better | Prerequisite | |

Recommendations: C- or better in Mandarin IV, IV Honors or recommendation by teachers. Students with a strong work ethic and outstanding homework completion habits.

The AP Mandarin/Chinese Language and Culture course is an intensive course designed to provide students with a learning experience equivalent to that of a fourth-semester college course. In this course, students engage in an exploration of both contemporary and historical Chinese culture through a wide array of authentic sources while they further refine and expand their knowledge of the Chinese language in vocabulary, idiomatic expressions, grammatical structures, and written characters. Extensive speaking assignments on various topics, reading of authentic texts, and writing in different genres and registers are required. This course is conducted entirely in Mandarin. Students who enroll will also prepare to take the Advanced Placement Exam in Chinese Language and Culture.

COURSE DESCRIPTIONS

NON-DEPARTMENTAL / ELECTIVES

ELECTIVE REQUIREMENTS

60 elective credits are required for graduation. ANY class taken in excess of a subject requirement is an elective. For example, a third year of science or mathematics will be applied towards the elective requirement. The classes on this page, **as well as those described elsewhere**, may serve as electives.

| | | |
|--------------------------|------|----------------------|
| <u>AVID TUTOR</u> | | <u>HO0070</u> |
| Gr. 10-12 | Year | 10 credits |

Requires AVID Coordinator/administrative approval.

Tutors are an important component of the AVID program. Students who have excelled in two (2) or more particular academic subjects and who wish to assist other students in these areas may earn elective credit for peer tutoring in the AVID classes. Peer tutors are especially needed for math and science classes. Training occurs during class the first two days of school and periodically during the school year to help tutors develop the leadership and inquiry skills necessary for facilitating effective study groups.

| | | |
|--------------------------|----------|----------------------|
| <u>PEER TUTOR</u> | | <u>NO1060</u> |
| Gr. 10-12 | Semester | 5 credits |

Students may work as Peer Tutors in one of several venues: Enhanced Algebra, Survey Skills, World Studies Skills or the Tutorial Center. In each of these areas, students work under the direct supervision of a teacher or the tutorial center coordinator. Students will tutor peers in subject areas as assigned. A maximum of 10 units may be earned during a student's four years at Los Altos High School. Students must participate in training as a part of receiving credit for this course.

WRITING CENTER PEER TUTOR **DO4010**

Gr. 11-12 *Additional info available from English Teacher*

This course will train the peer tutors who will work at the LAHS Writing Center. Specifically, this course will explore: how to write in a variety of settings and for a variety of purposes, how to give effective writing feedback, and how to be positive mentors and leaders on campus. The course will meet daily for the first four weeks of the year, and then will meet once per week for the rest of the year. Students will fulfill requirements for the course by attending class meetings and working in the Writing Center (students will sign up for 2-3 slots per week).

| | | |
|--------------------------|------------|----------------------|
| <u>DANCE TEAM</u> | | <u>OO1060</u> |
| *Gr. 9-12 | 3 quarters | 10 credits |

*Gr.10-12 receives PE credits.

Requires audition plus a 2.0 grade point average.

The Dance Team performs at rallies and games during the fall football season and winter basketball season. They represent LAHS at regional competitions in the spring. Freshmen through seniors may participate in this program upon acceptance following spring tryouts. Practices are held after school. Some weekend practices and competitions may also be required.

| | | |
|---------------------|------------|-----------------------------|
| <u>RALLY</u> | | <u>OO1040/OO1050</u> |
| *Gr. 9-12 | 3 quarters | 10 credits |

*Gr.10-12 receives PE credits.

Requires audition plus a 2.0 grade point average.

This course includes Cheerleading. Students participate in the fall football season, the winter basketball season. There are competitions as well. Freshmen through seniors may participate in this program depending on their skill level. Practices are held after school. Some weekend practices and competitions are required.

| | | |
|----------------------------------|------|----------------------|
| <u>STUDENT GOVERNMENT</u> | | <u>OC1020</u> |
| Gr. 9-12 | Year | 10 credits |

This year-long student-led course offers students opportunities to develop leadership skills and to serve as representatives of the LAHS student body. All students will learn and practice valuable skills in: public speaking and presenting; event planning; task and event coordination; finance and fundraising; and student body governance and service. Course enrollment is required for all ASB members, elected and appointed, and for class presidents. Students interested in this class but not appointed or elected may petition the Assistant Principal who serves as ASB advisor. Members of the ASB class give input to the administration on school-wide decisions that affect students, organize school spirit events, and put on fundraisers. They also develop and operate a budget

COURSE DESCRIPTIONS

NON-DEPARTMENTAL / ELECTIVES

for ASB expenditures and income, review club charters, and approve or deny requests for class/club fundraisers. As ASB representatives, members must maintain at least a 2.0 GPA, demonstrate commitment to the goals and expectations of ASB, and act as role models for LAHS.

Students enrolled in the class have volunteered their time to make Los Altos High School the best school possible. Being involved in ASB Leadership is a privilege, not a right. The students enrolled will be expected to show superior performance in the areas of leadership, citizenship and dedication to the betterment of Los Altos High School.

| <u>YEARBOOK</u> | | <u>OC1040</u> |
|------------------------|------|----------------------|
| Gr. 9-12 | Year | 10 credits |

Yearbook is an elective course that gives students experience in print media publishing and photojournalism. The course works toward the production and completion of the school yearbook. In class, students compose, construct, and edit all elements of a computerized text layout, graphic art, and digital photography. Students work on business operations, advertisement, conduct student, teacher and coach interviews, a Spring Supplement, and the planning and execution of the year-end signing party. The bulk of class time will be spent on generating computerized yearbook pages. The students will gain real world skills in teamwork, time management, organizational skills, and design principals. Students will often work in teams, but will also be expected to complete individual assignments. Some out of class time will be required. No prior experience is necessary. Students are highly encouraged to take the course over multiple years.

COURSE DESCRIPTIONS

ONLINE INDEPENDENT STUDY COURSE

ONLINE INDEPENDENT STUDY COURSE RX1020

| Grade 10-12 | S | Credits – 5 |
|-------------|-------------------------|-------------|
| Yes | HS Graduation Req. | |
| Varies | Univ. of Calif. Req. | |
| Varies | Calif. State Univ. Req. | |
| Counselor | Recommendations | |
| NCP | Level | |

This is an online software course delivery system. Counselor recommendation is required. The class is for credit recovery purposes with offerings in the core subject areas. It is not designed for acceleration or in lieu of courses currently being taught at Los Altos or Mountain View High School as part of the regular school curriculum.

The course is administered on the Los Altos High School campus during 7th period. Students meet with the teacher once per week to monitor their progress. The rest of the course work is completed by the student at home on their computer. The curriculum is also available over the Internet from most standard computers. Computers are also available in the library, tutorial center, and the college/career center. Students remain enrolled in 7th period until the course they need for graduation is completed. Depending on the needs of the student, the course can be completed in one or two semesters of the same academic year.

The purpose of the course is to offer an alternative instructional method to meet the diverse skills and needs of students.

ALTERNATIVE PROGRAMS AND SERVICES

ON-SITE SUPPORT PROGRAMS

Community Health Awareness Council (CHAC)

All of CHAC's programs are designed to protect young people from high-risk behaviors such as alcohol use, illicit drug use, violence, and premature sexual activity, while building personal assets such as school success, valuing diversity, maintaining good health, and the ability to delay gratification; all of which will help insure that they have the greatest chance for success in life. A critical component of CHAC's work is an "integrated care" model of working with four school districts to support the psychological and emotional well-being of students in K-12. All school programs are provided free of charge to students and their families. CHAC's school-based on-site counseling services address social, emotional and mental health issues affecting students' ability to learn. Staff consultation and training services enhance student support and success in the classroom.

More information is available by e-mail to info@chacmv.org or by calling (650) 965-2020.

Mentor Program/Mentor Tutor Connection

This program, coordinated by a part-time staff member Ann Wolff, partners a student with an adult mentor. Counselors and teachers refer students to the program based on both academic and personal needs. The mentors are adult professionals from our local community who represent many different careers. The mentor spends time with the student at least twice a month, providing unconditional attention and support in a low-key manner, serving as a friend and role model. The mentors are recruited, screened and trained by Mentor Tutor Connection, a community-based organization whose goal is to help youth thrive by providing high quality mentoring for our youth.

For more information please call (650) 691-2451 or e-mail to ann.wolff@mentortutorconnection.org.

The Academy

This course is designed to improve student's academic preparation and focus on completing high school graduation requirements. A large portion of class time is geared toward staying on top of coursework and assignments. Twice a week, on tutorial days, students will work individually or in groups on coursework and improving their knowledge of academic content. Weekly and monthly check-ins take place to make sure students are also accessing support services and academic support on campus. Intertwined into this academic focus is a series

college preparation workshops and activities to help students stay motivated and begin to plan their future goals. Constant and consistent communication with family is an essential piece to the course. Finally, rewards are given to students who show improvement and positive behavior in the class.

For further information please contact (650) 960-8463 or e-mail to jacob.larin@mvla.net.

Tutorial Center

Funded by the MVLA High School Foundation, the Tutorial Center supports academic achievement for students of all ability levels. Students can come to the Center to get help in all subjects as well as prepare for quizzes, tests, SAT/ACT and AP exams. The Center is a great place to do homework, to get help from tutors, or use computers, and other reference materials. The Center is open daily, Monday – Friday from 8:00 AM – 4:30 PM.

Tutors are recruited from a variety of sources including peer tutors who are successful high school students, and adult volunteers from the community. Tutoring sessions are conducted on a one-on-one basis. All of the Tutorial Center's services are free to the students.

For more information please call (650) 960-8474, or e-mail to quyen.nguyen@mvla.net.

The Library

The LAHS Library has a wide variety of resources to support students' academic and creative interests. Our collection of over 90,000 print, electronic, and audio books covers many different subjects and genres. In addition to books, students can also access seven different research databases to help them find accurate and timely articles for their information needs. To help students create original, multimedia products, the library has video and audio equipment that students can check out with just their student ID card and computer software to edit and polish their work.

The library is open daily, Monday-Friday from 7:00 AM – 3:30 PM. Funded by the MVLA High School Foundation, extended library hours are Monday-Thursday from 3:30 – 5:30 PM.

For more information please call (650) 960-8835, or e-mail to gordon.jack@mvla.net.

ALTERNATIVE PROGRAMS AND SERVICES

ON-SITE SUPPORT PROGRAMS

The LAHS Writing Center

The Center is a place where students can receive help on writing assignments for any subject at any phase of the writing process by teacher's referral. It is staffed by a group of trained student tutors who have completed a 4-week training course focusing on how to give effective feedback on writing. They are bright, enthusiastic, thoughtful, encouraging, and eager to help the students!

The Center is open as follows:

Monday – Thursday during 7th period and after school. Located in the LAHS Library.

Student can get information and referral from teacher or contact Caitlin Hannon in Room 503.

College and Career Center at Los Altos High Schools invites you to use their many resources and services. Students and parents may check out college guides, or use a variety of helpful materials relating to the college process, and avail themselves of career resources, test registration and preparation materials, and other helpful information. As well computers are available in the Center. Computers allow students to explore college and career choices through the Naviance/navigational tool and other resources. SAT, SAT Subject, and ACT test preparation materials are available as well as Financial Aid and scholarship information.

College representatives from around the country speak with interested students. The Center also offers occupational information and helps students make post-high-school plans. In collaboration with the Counseling Department, the Center sponsors evening programs about college admissions, financial aid, standardized testing, as well as the College Fair and Countdown to College.

College & Career Center hours are:

7:30 am - 4:00 pm Monday - Friday.

The center is funded by the donations to the MVLA High School Foundation. Thank you for your support!

For further information please call (650) 960-8836.

College Adviser

The College Adviser works with the College and Career Center to build a comprehensive college-going culture for all students in addition to facilitating presentations to all junior and senior English classes highlighting the importance of planning post-secondary options, discussing basic college requirements and the detailed application process.

The College Adviser created a guide for freshman, sophomores and juniors to assist in their navigating their path to college. College and financial aid application workshops are held before and after school. Junior and senior parent night is available to families. See Ms. Price for the Guide if the student does not have one. The College Adviser is funded by the MVLA Foundation. **Office is located in the Tutorial Center.**

ALTERNATIVE PROGRAMS AND SERVICES

OFF CAMPUS ALTERNATIVES

Alta Vista High School Continuation School Program, 1325 Bryant Ave., Mtn. View CA 94040

Alta Vista High School (AVHS) is an alternative high school in Mountain View serving the Mountain View/Los Altos Union High School District (MVLA) and the Palo Alto Unified School District (PAUSD). AVHS has been honored four times by the California State Department of Education as a Model Continuation High School. Alta Vista High School has been fully accredited by the Western Association of Schools and Colleges (WASC) since 1999.

Our students must meet the same graduation requirements as students who attend the traditional schools. All courses required for graduation are offered on site, including such electives as Yearbook, Art, Web Design, Computer Information Technology, Construction. In addition to passing all required courses, students must complete an Exit Portfolio to graduate.

AVHS is for students who prefer a small school setting, have not found success in a traditional school setting, and work best in flexible classrooms where students' learning styles and needs are honored.

AVHS is designed to enable students to graduate from high school prepared to attend college and career programs, allow students to complete required credits/courses to transition or return to a traditional high school, encourage students to take courses at community college, adult education, or traditional schools, instruct and guide students who have unique needs and may need: independent study, work-study, or a modified schedule due to extenuating circumstances, and provide special education services for those students who qualify.

Our staff includes one principal, one special education teacher, six general education teachers, three instructional aides, community resources coordinator, a mentor coordinator and an office manager. Additional counseling services are provided by the Community Health Awareness Council (CHAC), Children Health Council (CHC), and the Lucille Packard Children's Hospital's Adolescent Health Van visits our campus every month.

For more information call (650) 691-2432.

Community Services Coordinator

The Alta Vista High School Community Services Coordinator complements and supports the

alternative educational programs by providing a variety of school-linked services to students and their families to address needs that have a negative impact on the student's educational performance. The Community Services Coordinator identifies, assesses, evaluates, refers, and may access services for students and their families. The Community Services Coordinator also provides resources for conflict resolution, alcohol/drug prevention-intervention, emergency housing and food, health and legal services, etc.

For more information please call (650) 691-2430.

Freestyle Academy of Communication Arts & Technology, 1299 Bryant Ave., Mtn. View, CA 94040

At Freestyle Academy of Communication Arts and Technology, students develop skills in effective written, oral, and visual communication, and work with the latest multimedia technology to find outlets for creative expression. Juniors and Seniors enrolled in Freestyle attend from 9:30 am to noon or from 1 pm to 3:30 pm daily. Students attend classes the alternate part of the day at Mountain View, Los Altos, or Alta Vista High School. Rather than emphasizing lectures, quizzes and tests, classes at Freestyle rely on project based learning and real world connections to engage students.

Project based learning combine's traditional English and Fine Arts curricula with 21st century skills, such as self direction, creativity, and collaboration. Students use the latest technology to become producers, not just consumers, of media, using the latest multimedia software program such as Photoshop, Illustrator, InDesign, Dreamweaver, Animate, After Effects, Premiere Pro, DragonFrame, Maya, Reason, Ableton Live, and Pro Tools.

All classes at Freestyle Academy meet UC/CSU requirements for English and Visual & Fine Arts. The Academy is designed as a two-year program with advanced work offered in the 2nd year.

<https://freestyleacademy.rocks>, or call (650) 940-4680.

ALTERNATIVE PROGRAMS AND SERVICES

OFF CAMPUS ALTERNATIVES

ENGLISH III TC1010

| Grade 11 | Y | Units – 10 |
|-------------------|---|------------|
| English b b | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommended Prerequisites | |
| CP | Level | |

In this college preparatory, UC-approved English course, students explore personal, social, and political topics through the study and composition of literature and visual art. From their experiences in English, students develop core project concepts and content that they translate in their Freestyle media classes. In addition to developing research and writing skills through persuasive speeches, research papers, expository essays, short stories (in prose and graphic novel forms), and poetry, students will also learn to become strong presenters, technological communicators, project managers, collaborative workers, and creative problem solvers.

More info at <https://freestyleacademy.rock/English>.

ENGLISH III HONORS TB1011

| Grade 11 | Y | Units – 10 |
|-------------------|---|------------|
| English b b | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommended Prerequisites | |
| H | Level | |

In this UC-approved, rigorous college preparatory course, students complete all of the core English III work while also engaging in deeper studies of novels, short stories, drama, poetry, and nonfiction works, analyzing literature in terms of theme, devices, and author's point of view. Students draw inferences, understand historical influence, and consider philosophical stance. They expand their vocabulary and listening and speaking skills within the context of literature. They demonstrate more advanced research techniques and an enhanced ability to write with an understanding of audience and purpose. Over the course of a year, they produce a variety of writings, including reading logs and journals, character studies, speeches, creative pieces, and compare and contrast, analytic, expository, narrative, reflective, persuasive, and research essays.

More info at <https://freestyleacademy.rock/English>.

ENGLISH IV TC1030

| Grade 12 | Y | Units – 10 |
|-------------------|---|------------|
| English b b | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommended Prerequisites | |
| CP | Level | |

This is a UC-approved, college-preparatory senior English class. In this course, students examine themes and questions relating to psychology and philosophy through a variety of literary fiction and nonfiction genres. Students develop expository, creative and reflective writing, critical reading and thinking, and public speaking skills as well as learning the fundamentals of English mechanics and grammar. In class discussions developing skills in Shared Inquiry will be an essential component of the class. Students will create an extended research paper and Senior project, as well as a formal presentation of their portfolio of their work to a panel of experts in a specific professional field related to their Freestyle work.

More info at <https://freestyleacademy.rock/English>.

ENGLISH IV HONORS TB1033

| Grade 12 | Y | Units - 10 |
|-------------------|---|------------|
| English b b | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| None | Recommended Prerequisites | |
| H | Level | |

This is a UC-approved, college preparatory senior English course option which offers students a more rigorous curriculum supplement to the core English IV course required of all Freestyle seniors. Students examine in greater depth themes and questions relating to psychology and philosophy through a variety of literary fiction and nonfiction genres. Through more extensive and challenging reading, writing, research, discussion, and presentation assignments, students develop more sophisticated expository, creative and reflective writing, critical reading and thinking, and public speaking skills as well as learning the fundamentals of English mechanics and grammar. In class discussions developing skills in Shared Inquiry will be an essential component of the class. Students electing the honors option will create a more extensive research paper relying on more scholarly sources, serving as the basis of a Senior project. They will also deliver a formal presentation of their portfolio of their work to a panel of experts in a specific professional field related to their Freestyle work.

More info at <https://freestyleacademy.rock/English>.

ALTERNATIVE PROGRAMS AND SERVICES

DIGITAL MEDIA I TC1060

| Grade 11-12 | Y | Units – 10 |
|-------------------------------|---|------------|
| Visual & Perf. Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| * | Recommended Prerequisites | |
| CP | Level | |

This required course provides a theoretical and applied academic foundation to use digital media in graphic and traditional art along with audio engineering. Students create and design web pages, graphics, and animations as a basis for developing skills in visual communications. The class focuses on basic design, layout and construction, setup and maintenance of a web site. Students also create audio projects for developing skills in audio communication with basic and professional recording equipment. Software applications will include Dreamweaver, Premiere Pro, Photoshop, Illustrator, InDesign, After Effects, Reason, Ableton Live and Pro Tools. Students will also learn HTML5 debugging and the use of Cascading Style Sheets (CSS3) for web production.

More info at https://freestyleacademy.rocks/Digital_Media.

DIGITAL MEDIA II TC1063

| Grade 12 | Y | Units – 10 |
|-------------------------------|---|------------|
| Visual & Perf. Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| Digital Media I | Recommended Prerequisites | |
| CP | Level | |

This required course provides a more advanced theoretical and applied academic foundation to use digital media in graphic and traditional art along with audio engineering. Students will continue to create and design web pages, graphics, and animations as a basis for developing skills in visual communications. The class focuses on basic design, layout and construction, setup and maintenance of a web site. Students also continue to create audio projects for developing skills in audio communication with basic audio recording techniques inside and outside the recording studio using industry and home recording equipment. Students in this class will develop deeper into previous applications and will also receive an introduction to JavaScript/jQuery.

More info at https://freestyleacademy.rocks/Digital_Media.

ANIMATION I TC1070

| Grade 11-12 | Y | Units – 10 |
|-------------------------------|---|------------|
| Visual & Perf. Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| * | Recommended Prerequisites | |
| CP | Level | |

Animation I, an elective course at Freestyle Academy, is designed to provide students with an opportunity to build up their portfolio of digital work by focusing on animation principles and drawing skills for digital animation. Students will increase their knowledge of the production process from initial script writing, concept design and storyboarding through a final edit, sound design and rendering by using animation software and studying both traditional (2D, stop-motion, frame-by-frame) and 3D digital animation techniques.

More info at <https://freestyleacademy.rocks/Animation>.

ANIMATION II TC1073

| Grade 12 | Y | Units – 10 |
|-------------------------------|---|------------|
| Visual & Perf. Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| * | Recommended Prerequisites | |
| CP | Level | |

Animation II, an elective course at Freestyle Academy, is designed to provide students with advanced animation and filmmaking skills for their digital portfolio by focusing on the study and exploration of CGI computer animation, advanced concept design, and storytelling. The student will increase their knowledge of multiple digital animation pipelines and formats including video mapping, 360, VR and AR. New skills will include character development, lip sync, cinematography and special effects.

More info at <https://freestyleacademy.rocks/Animation>.

DESIGN I TC1040

| Grade 11-12 | Y | Units – 10 |
|-------------------------------|---|------------|
| Visual & Perf. Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| * | Recommended Prerequisites | |
| CP | Level | |

Design I, an elective course at Freestyle Academy, provides a foundation in the elements and principles of art and design via digital applications. Students create digital photography, illustrations, and graphic design using Adobe computer programs. Course work is fully integrated with the other courses at Freestyle Academy (Digital Media, Film Production and English). Software used in the class includes Adobe Photoshop, Illustrator, and InDesign.

More info at <https://freestyleacademy.rocks/Design>.

DESIGN II

TC1043

| Grade 12 | Y | Units – 10 |
|-------------------------------|---|------------|
| Visual & Perf. Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| Design I | Recommended Prerequisites | |
| CP | Level | |

Design II, an elective course at Freestyle Academy, continues the exploration of the elements and principles of visual design in a series of longer term, larger scale, more technically demanding projects through a series of projects involving traditional and non-traditional photography as well as more advanced new media challenges. Students will also use Adobe Illustrator, InDesign and Photoshop for various projects but at a more advanced level. They learn more unconventional and cutting-edge techniques in photography and the Adobe programs using alternative lighting, different exposure techniques, and shooting more challenging objects/subjects. In addition, students will focus on critical thinking by developing the concepts behind their work, delving further into symbolism and meaning through visual art.

More info at <https://freestyleacademy.rocks/Design>.

FILM PRODUCTION I

TC1050

| Grade 11-12 | Y | Units – 10 |
|-------------------------------|---|------------|
| Visual & Perf. Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| * | Recommended Prerequisites | |
| CP | Level | |

Film Production I, an elective course at Freestyle Academy, offers experience in pre-production, production and post-production filmmaking techniques, instruction in story development and film analysis, storyboarding, basic camera and audio operation, and editing and special effects. Students study film form, learning basic rules of continuity shooting and editing while collaborating to develop and complete short experimental, narrative, and documentary film projects using professional film tools and resources.

More info at <https://freestyleacademy.rocks/Film>.

FILM PRODUCTION II

TC1053

| Grade 12 | Y | Units – 10 |
|-------------------------------|---|------------|
| Visual & Perf. Arts f f | HS Graduation Req. Univ. of Calif. Req. Calif. State Univ. Req. | |
| Film Production I | Recommended Prerequisites | |
| CP | Level | |

Film Production II, an elective course at Freestyle Academy, introduces students to advanced skills and techniques in all aspects of the filmmaking process,

while also adding experiences in the roles of writer, director, and producer. New skills include screenwriting and character development, creation of shot lists and shooting schedules, advanced, cinematography and lighting, and specialized special effects. Students collaborate on video essay, screenplays and narrative films, while also developing an independent project of their own design. Editing moves beyond the basics and includes the use of post-production special effects software. Second year projects demonstrate improved cinematic aesthetic, depth, and creativity.

More info at <https://freestyleacademy.rocks/Film>.

ALTERNATIVE PROGRAMS AND SERVICES

OFF CAMPUS ALTERNATIVES

Alta Vista Opportunity Program, 1325 Bryant Avenue, Mountain View, CA 94040
<https://www.mvla.net/AVHS>

The Alta Vista Opportunity Program (AVO) is designed for 9th and 10th grade students who need a smaller, more personalized setting and for students who have not found success at AVHS, LAHS or MVHS high schools as reflected by one or more of the following: behavioral issues, poor attendance, and/or credit deficiency. **For more information call (650) 691-2333.**

Middle College, 12345 El Monte Rd., Los Altos Hills, CA 94022

Middle College provides expanded educational options to students in the Mountain View-Los Altos Union High School District. Middle College is a high school/college collaborative program designed for juniors and seniors who are seeking an alternative to regular high school with a serious academic focus. The program is housed on the Foothill College campus. It serves students who are academically talented, capable of doing college level work, but who, for a variety of reasons, may not be performing up to their potential in a traditional high school. Students receive college credit for their college coursework. Middle College students must meet the same high school graduation requirements as their peers in our traditional schools to earn a diploma from their home high school.

For more information call (650) 949-7168.

College Now!, 12345 El Monte Rd., Los Altos Hills, CA 94022

MVLA High School District and Foothill College are collaborating on a new program - College Now! - so some juniors and seniors can start college early and graduate from high school with a year or more of transferable college credits. College Now! is ideal for students who are highly self-motivated, mature, independent, responsible and hardworking, and who may have 'outgrown' high school and are seeking a stimulating educational environment that is different from high school.

For more information about the program and how to apply, visit <https://www.foothillcollegenow.org/> or e-mail gary.mchenry@mvla.net.

ALTERNATIVE PROGRAMS AND SERVICES

PROGRAMS OPERATED BY or HOUSED AT

ADULT SCHOOL

333 Moffett Blvd., Mountain View, CA (650) 967-7919
<https://www.mvla.net/AS> | E-Mail Address adulthood@mvla.net

Moffett Independent Study Program

MVHS and LAHS students needing to complete high school diploma requirements independently may do so through the Moffett Independent Study Program which utilizes a blended approach to learning. Many students take their courses online with the assistance of an adult school credentialed instructor assigned to the student. Students who need additional help can come to the learning lab at AE RM. 104 to work on the computer, get academic assistance, study alone or with peers, and take tests.

The learning lab is open and staffed for student academic use Mon - Thur from 9:00AM-8:30PM and on Fri from 9:30AM-1:00PM.

Students with special needs or who are severely deficient in credits meet individually with an assigned instructor at least once per week at regularly scheduled day or evening appointments to review and evaluate their work and to obtain new assignments. Students are assigned a minimum of fifteen (15) hours of school work every two weeks. For every 75 hours of satisfactory work, a student receives 5 high school credits. Virtual teacher interaction/support is available for eligible students.

Students must first consult with their high school counselor and assistant principal to ensure that independent study is the appropriate program for achieving their goals. **For more information, call (650) 967-7919.**

Concurrent Enrollment – District high school students

MVLA Adult School offers part-time high school coursework to currently attending district high school students. Students MUST BE at least 16 years of age and attending their home high school full-time. All concurrent classes are conducted as an online/blended high school diploma program after the regular school schedule. Students meet with instructors during scheduled times based on student needs and the requirements of the coursework. **Students must first consult with their high school counselors to ensure that the online/blended course of study is the appropriate program of study and be officially referred to this adult school program. Once the referral has been made, students must attend a mandatory orientation session held every Thurs. from 4:30-**

5:30PM in RM. 106 at the adult school. Call (650) 967-7919 for more information.

High School Diploma Program (for adults)

Mountain View-Los Altos Union High School District offers a high school diploma program for persons *18 years of age and older* who want to complete their high school credits and need 50 credits or less to obtain a high school diploma. Here students are assigned a minimum of fifteen (15) hours of school work every two weeks. They meet individually with their instructor at least one hour a week at regularly scheduled day or evening appointments to review and evaluate their work and to obtain new assignments. Online courses are self-paced and based on student mastery of the course. Enrollment is open entry/open exit. All diploma programs meet district and state requirements. **For more information, call (650) 967-7919.**

G.E.D. Test Preparation Classes

This course is offered in a blended model format to address the needs of our students. Individualized instruction, as well as group discussion, is offered to students in subjects such as reasoning through language arts, math, social studies and science as they prepare to pass the series of four G.E.D. tests. Students also gain effective test-taking strategies, experience with computer-based testing, opportunities for individual goal-setting and support with post-secondary transitional opportunities. Prerequisite: Students should pass a preliminary reading assessment prior to enrolling in this class. The reading assessments for the GED prep class is given at orientation, every Wednesday from 5-7PM in AE RM. 203. Students must pre-register. **Call (650) 967-7919 for more information.**

G.E.D. Testing

The Mountain View-Los Altos Adult School is an official G.E.D. Testing Center. Registration is now done completely online. Go to GED.com. G.E.D. Testing Service accepts payment for one test at a time upon test scheduling. When registering, MVLA-Adult School can be selected as your testing site. Tests are held at the Adult School 2-4 nights per week. Test fee: \$140 for the complete battery of four tests or \$35 per test. **Local testing site registration fees may also apply. For more information, contact the MVLA-Adult School at (650) 940-1333.**

Young Parents Program

Pregnant? Parenting? Join other teens or young adults in finishing your high school diploma or preparing for the G.E.D. test via direct instruction, group work, and online coursework. Program includes on-site childcare, transportation, free/reduced lunch to those eligible, and parenting support and resources. Free instruction by credential staff. Students should be referred by their high school assistant principal. Offered Monday - Thursday, 12:30-3:30PM. **For more information, please call (650) 967-7919.**

GLOSSARY OF TERMS AND PROGRAM ABBREVIATIONS

Some of the words and terms used in this booklet or in the course selection and scheduling process may not be familiar to all students and parents. The following brief explanations may be helpful.

“a-g” Subject Requirements

See page 4. This designation refers to a set of courses required for entrance into the University of California or California State University systems. UC requires students to complete a series of high school college preparatory courses in order to be eligible for admission. The current a-g course list may be found at <https://hs-articulation.ucop.edu/guide>

Academic Courses

Academic courses prepare students to meet graduation requirements, seek immediate employment after high school, enter the military, or to further their education. As the name implies, the emphasis is on serious academic studies.

ADEN – Advanced Data Structures and Embedded Systems and Networking

See TED section for Computer Science courses.

AP - Advanced Placement

Advanced Placement or AP (when capitalized) refers to college courses taught according to syllabi prescribed by the College Board Advanced Placement Program and/or courses designed to prepare students for College Board AP Tests. Successful performance on AP tests (a score of 3, 4, or 5 on a five-point scale) may lead to college credit and/or advanced placement in college courses. For further information on the policies on the granting of AP credit, consult the catalogs of specific colleges and universities or contact your high school counselor. Success in AP courses can be an important factor in admission to highly selective colleges and universities

ASB – Associated Student Body-Student Government

AVID – Advancement Via Individual Determination

This course is a support class for students underrepresented in higher education. It engages students in the writing process, inquiry method, and collaborative learning to improve critical thinking and communication skills.

California Assessment of Student Performance and Progress (CAASPP, SBAC, SBSA, CAST)

Every spring, students in grade eleven take the Smarter Balanced Summative Assessments for English Language Arts and mathematics. *Students in grade 12 take the CAST is science.* Results from these assessments are just one piece of information to help teachers, parents/guardians, and students understand how well a student is meeting grade-level standards.

The Smarter Balanced Summative Assessments *and* CAST are an important innovation in several ways:

- They are aligned with California’s new content standards for ELA, mathematics *and science*.
- They reflect the critical thinking and problem solving skills that students will need to be ready for college and the 21st century job market.
- They are taken on a computer and are adaptive, which means that during the test, the questions will become more or less difficult on the basis of how the student performs. If the student answers a question correctly, the next question may be a bit more challenging; if the student answers it incorrectly, the next question may be less difficult.
- They provide many more supports for students who need them, including students learning English and students with disabilities.

GLOSSARY OF TERMS AND PROGRAM ABBREVIATIONS

CHAC – Community Health Awareness Council

CHAC provides Counseling, therapy, and a variety of programs to help the children and families.

CHSPE – California High School Proficiency Examination (CHSPE) (Examination subject to funding by the State)

The California High School Proficiency Examination (CHSPE) is a voluntary test that assesses proficiency in basic reading, writing, and mathematics skills taught in public schools. Eligible persons who pass the CHSPE are awarded a Certificate of Proficiency by the California State Board of Education. The test is given in English only.

You may take the CHSPE only if you meet one of the following requirements on the test date:

- You are at least 16 years old, or
- You have been enrolled in the tenth grade for one academic year or longer, or
- You will complete one academic year of enrollment in the tenth grade at the end of the semester during which the CHSPE administration will be conducted.

College and Career Center

The resource center provides assistance to students in preparing for career and college. The Center located in the library building coordinates speakers from business and industry, college recruiters, and college admissions officers. It houses many resources in print and online to help students in the selection of a college or a career.

CP – College Prep

The designation is used for courses that meet the UC or CSU a-g requirements.

Crossroads

A special education, independent study class in specific subject areas designed to help students make up credits they need to

graduate. The program offers vocational and career/job training, and supplies course materials for home & hospital students.

College Board

<https://www.collegeboard.org>

CSU – The California State University

<https://www2.calstate.edu/>

There are as many as twenty three (23) CSU campuses spread across northern, central and southern California.

CSU Campus Match

Elective Course

Electives are courses that students choose to take. Electives, by definition, are not required. However, students may be required to choose from a variety of electives in order to meet graduation or college requirements.

ELL – English Language Learner

Students who are learning English as a second language.

ELD – English Language Development

Specially designed English program for ELL students and offered in Mountain View HS.

Extracurricular Activities

Extracurricular refers to student clubs and activities which meet outside of the regular school day and which are not part of specific courses within the traditional school curriculum.

GED - General Educational Development

What if you don't have your high school diploma? The GED test is generally accepted by employers in lieu of a high school diploma based on GED scores. The GED measures an individual's level of general educational development in comparison to high school

GLOSSARY OF TERMS AND PROGRAM ABBREVIATIONS

students. Most of the questions emphasize an ability to interpret reading material. Students must be 18 years or older to be eligible to take this exam. For more information, contact the MVLA Adult School at (650) 940-1333.

Honors (H) Courses

Honors courses are those which are taught at a high school level but which, like AP courses, provide the greatest challenge and the best preparation for admission to and success at highly selective colleges.

IEP – Individual Educational Plan

For students who qualify for Special Education.

LEP – Limited English Proficient

Instruction for students whose first language is other than English and who are eligible for placement in the English Language Development Program.

NAViance/Family Connection

Naviance is a web-based resource that supports college planning. The data provided is specific to Los Altos High School graduates. The accounts are private, only available to the student, the student's parents and the counselor. This can be found on <https://student.naviance.com/losaltos> or navigate at LAHS Homepage entry link to Student Services | College and Career Center and click Naviance Family Connection under LAHS Resources on the right.

NCP – Non College Prep

The designation is used for courses that do not meet the UC or CSU a-g requirements.

PLTW – Project Lead the Way

See TED section for Engineering courses.

Prerequisite

A prerequisite is a course that a student must complete in order to qualify for entry into another course. Before students can take Algebra 2, for example, they must have

completed Geometry. Therefore, Geometry is a prerequisite for Algebra 2.

Quarter

Each semester is divided into 2 quarters. Students receive grade reports at the end of each quarter and semester. Only semester grades are recorded on the transcript.

Required Course

A required course is one that must be taken by all students in order to meet high school graduation requirements. Examples of required courses are U.S. History, Health, and Physical Education.

RSP – Resource Specialist Program

A less restrictive environment for Special Education students. Students can receive assistance with their mainstream class work for one period daily.

SAI - Specialized Academic Instruction

Courses offered in Special Education program.

SDC – Special Day Class

Intensive instruction for eligible Special Education students who require additional support in academic areas. Students also take a variety of mainstream course offerings.

SELPA – Special Education Local Plan Area

The regional team responsible for providing Special Education services to students within a particular geographic region of Santa Clara County.

Semester

A semester is one-half of a school year and includes two of the four marking periods. The first semester starts in late August and finishes near the end of December. The second semester starts in January and finishes in mid-June. Semester grades are recorded on the official transcript.

Student Information System (SIS)

Aeries SIS allows parents and students to access a wealth of information, including;

GLOSSARY OF TERMS AND PROGRAM ABBREVIATIONS

attendance, course history, current progress report grades, and some current grades (depending upon teacher utilization). This can be found on <https://www.mvla.net/LAHS> and click on Parent/Student Portal on the front homepage.

T.E.D. – Technology Engineering and Design

A new department composed of elective courses focusing on the application of practical skills that get students both college and career ready. Course topics stem from engineering, computer science, and culinary arts concepts.

TP – Therapeutic Program

A program designed to meet the emotional, behavioral, and educational needs of students whose learning is significantly impacted by their social-emotional needs that cannot be addressed within any of the other special education programs.

Tutorial Center/Study Center

A place where students can go to get help with their studies. Both student and adult tutors are available through the center to help students in specific subject areas. The Center is located in the library building.
